

WELCOME TO THE MEMBERSHIP POST 22

CONDITIONS ON THE EARTH AT PRESENT

Based on Chapter 24 of my book Keys to Reality

Written in 1985 (revised)

I have added a few recent newsworthy items.

Points of Realization

Before proceeding further, let us revise a little. These are points of realization with which (True) Beings should be equipped at this stage of their awakening process, for they are essential to future physical and spiritual well-being and are essential in the preparation for the coming inevitable changes. The following points are all important.

1. We are in the middle of a **War of Essences**.

2. There should be no pressure on you to believe anything.
3. You should develop the ability to **get answers from within.**
4. This dimension is one of many throughout creation which has been overcome by Evil. A takeover had occurred and now a **Rectification Plan is in operation.**
5. Since the takeover of this dimension by the evil essence, and up until this point, **a loving, just God has NOT been in control. This planet has been controlled by an evil usurper** whose demise is imminent.
6. Evil is not part of the Divine plan. Evil does NOT need to exist. It is not the obligatory opposite of Goodness. Evil is an aberration. **Evil beings deny the very existence of evil**, and that itself is a trap used against True Beings.
7. There are basically two beings in society:
 - * **True Beings**, created by the Divine Absolute.
 - * **Counterfeit**, or mock beings, created by Evil.
8. There are **many classes of consciousness** in these physical bodies. In fact, there are 10 classes incarnated in the human bodies at this time and they were detailed earlier:
 - Ancients;
 - Ancients of Ancients;
 - Earthling True Beings (they number approx. one billion) < the consciousness of which was evacuated in 1999>;
 - Translocated beings from other planets (they number approx. one billion also);
 - Mock evil-created beings (approx. 3 billion);
 - Class 5 beings; Fallen Class 5 beings;
 - Special Creations of the Supreme;
 - Evil incomplete beings (Soulless ones);
 - The Rescuers.
9. The Rescue Operation is quite advanced and this is the **Final Generation** of the system as we know it on this earth.
10. Physical bodies are impositions upon the consciousnesses of True Beings. True Beings were forced to use them by the changing conditions after the takeover by Evil. The bodies are subjected to various programming factors and reflexes which distort the expression of the consciousnesses of the True Beings who reside within them.
11. The metaphysical, anatomical structure of beings on this planet is as follows:

They have an astral body, an etheric body, an emotional body, and a physical body with its physical mind and a Filtering Mechanism.

Within all these structures is the spiritual consciousness.

This physical body is programmed by the genes and the chromosomes, by the physical mind and the agents acting upon the mind and body, and by behavioural patterns which are both congenital and acquired.

12. This physical body is affected very much by Maya, that is, the evil illusion and its environment, and the principle agents of programming, which today are: oxygen, food, alcohol and tobacco, drugs, sex, radiation, the influence of wealth, talismans and microbes, indoctrinating education -- religious, nationalistic, racist, etc.

13. The consciousnesses of True Beings exist within the bodies in 7 Centres of Consciousness and within them are Nuclei which have Divine awareness, Essences of the Creator, Permanence, A Divine heritage and the blueprints for the Divine evolution of the individual.

14. For a being to express Divinity the outer, evil-created and imposed bodies (which collectively are called the VITAL BODY) need to be bypassed. In other words, the effects of the etheric, astral, emotional and physical bodies need to be bypassed.

Emotions and the effect of negative energy on any of these have to be bypassed.

15. A being is programmed, polluted and indoctrinated also by his culture, physical traits and handicaps, by schooling, religion, nationality and peers. Ultimately, it is not the labels one acquires that are important, but the essence within.

16. The programming and pollution pander to the physical vehicle and appease this vehicle at the expense of the spiritual being within.

In the War of essences, one can be one's worst enemy because of this programming, pollution and indoctrination.

17. The more one awakens and sees through the MAYA, the less is one satisfied with this Evil System, and the less is one harmonious with this system, because one becomes more and more aware of the exploitation of energy that occurs, of the pollution and of the destruction of True Beings.

18. Most physical activities and social interactions are mechanisms for the extraction of energy from the True Beings by the mock beings who are energy vultures in spiritual terms.

Even without being truly awakened, many True Beings have realized the meaninglessness of physical existence without the spiritual component.

19. The thing to realize is that we HAVE BEEN TRAPPED here. And every situation on this plane has been set up by Evil, its Archons, minions and mock beings to attack, drain and pollute the True Beings.

20. Social intermingling over the ages has obscured the differences between True and mock beings. And the social practices which have allowed intermarriage, maximum exposure to negative energy, and a dependence on the systems, especially the religious systems, have also obscured the differences.

21. True Beings who have tried to isolate from the Evil System in the past have been scorned and overrun by robots, who would not let them be. Those who rebelled openly against it were persecuted and slaughtered mercilessly. Gnostics, Bogomils, Cathars, Albigensians, intellectuals, scientists called heretics, etc., are examples.

22. The various distorted religious philosophies and their institutions are nothing more than evil-run programming and exploiting agents.

- *They instil guilt.

- *They trap awareness with rhetorical, expedient dogma.

- *They invariably express intolerance for the views of others.

- *They teach untenable, distorted philosophy which is really nonsensical when examined closely. All these distorted philosophies have caused disharmony, exploitations, differences and dissensions throughout history. **All Religions are about to crumble, never to be resurrected again!**

23. A need to physically survive in this concrete jungle has been created, and this very strong survival instinct is really a programming mechanism, so that the Inner Being will be bypassed and forgotten.

- * If one succeeds in the "Rat Race" traps of wealth await.

- * If one fails in the "Rat Race", traps of poverty and ego await.

24. It is the exchanges of energy between people in interactions which are important, and these, with other polluting factors, cause drainage of positive energy, acquisition of negative energy, and pollution. It is the acquired evil energy in exchanges that results in physical and mental illnesses which then call for more agents of pollution, such as drugs, further interaction with the polluting robots, exposure to institutions, religions and so on.

25. The cycle of energy exploitation has been intensive. Unfortunately, most of the traps to program beings have been sensually pleasing for the physical body, easy to fall into, and difficult to escape from.

26 Suffering is an imposition by the evil demigod to exploit True Beings.

27. **Doubt and scepticism are programmed onto the outer mind to stop one awakening.** And many beings have had their physical lives wrecked by this mechanism of implanted doubt.

Due to the mechanism of thought implantation, the thoughts you entertain, which may harass you or drive you to distraction, make you reach decisions which eventually work against you, may not even be your own!

28. **This generation is unique.** Here are 3 reasons why it is unique:

*In this generation the mechanisms of evil programming, pollution and indoctrination have been exposed.

*Full exposure of Evil is occurring.

*A definitive rectification is occurring in this generation:

- Finalization of the War,
- Evacuation of all True Beings,
- Restoration of the Divine order in a New Dimension.

29. **EGO is an evil-created mechanism to further weaken and destroy the Divine Order.**

By its use the emotions and the responses of the physical body are triggered by various energy mechanisms in the Evil System to act against the spiritual being. Institutions have a collective ego, and this is obvious with the religious institutions. Note that **the Light does not entertain egos!**

30. Unless evil programming and indoctrination are bypassed, the responses of beings will be responses of evil programming and not of the Inner Divine Being.

Programming, especially religious programming, has been used to make True Beings feel unworthy and to engender guilt, to belittle the Divine Being within it, and to trap It within the physical vehicle.

31. The more one recognizes the evil programming, pollution and indoctrination in this system, the more does one realize what a farce existence on this plane is.

32. Because of the evil mechanisms of Reincarnation and the Law of Karma, we are tricked into various roles which are illogical.

In previous lives one may have been black, agnostic, cannibalistic, even totally amoral. And then in the very next life one may have been a white minister of religion, vegetarian and apparently highly spiritual.

The various manifestations in different lives, in most cases, are programmed responses of the acquired shell, and its environment, its genetics, its culture, its food and peer pressure. They have nothing to do with the spiritual being within. Such mechanisms only lead to confusion and ignorance.

33. Behavioural patterns can be congenital.

Therefore, the body can be programmed by the time of birth, colour, race, creed, genetic pattern and so on.

And then as it grows, its food, schooling, drugs and other acquired conditions give it a multiplicity of pre-programmed responses which dictate how the consciousness occupying that body will respond.

This is the explanation of homosexuality and various other behavioural patterns. Because of these various factors, an almost insurmountable barrier of pollution can occur and this can give rise to rigid programming and fixed responses to any and every situation that is likely to be met by that shell. The True Consciousness within is isolated into exclusion.

34. These fixed responses to programming need to be actively overcome before the True Divine Being can express. It is obvious that much effort is called for in overcoming this programming and pollution.

35. Most have compromised with the Evil System and the more they have compromised the more are they locked into the Evil System. With compromise come more negative energy, more programming, more pollution and more loss of awareness.

36. Some of the programming is destructive and some is manipulative and destructive.

Destructive programming can be seen in alcoholism, drug addiction, tobacco addiction, vices which lead to crime, lust, jail, etc.

Manipulative programming can be described as the emotional traps and attachments which occur in interpersonal relationships, in marriage, in family ties, in attachment to children, in religions, in facets of culture, in formal education, in nationalism, racism, etc.

All these program beings in such a way so as to suit this dimension, to get them to accept the Evil Illusion, and to blind True Beings to the traps that exist in the Evil System.

37. Many have become so dependent on the system, because of this programming, that they are frightened when the programming is cut off or when they are asked to cut away from it.

That is, when they are asked to think for themselves, many people panic.

Most people cannot tolerate isolation from the Maya or even simple input deprivation as occurs with fasting, meditation, silence, or being alone.

They are frightened of communication with their Inner Being that can occur under these circumstances.

They have been convinced by the churches that such communication is evil when, in actual fact, it is beneficial when done correctly.

When many are asked to think for themselves they do not go within and listen to the Inner Being. Rather they recall what they have been taught in school, in religious classes, or what had been told to them by their peers.

38. Many True Beings have forgotten how to communicate with their Inner Nuclear Mind.

39. Many have become so alienated from their Inner Being that if by chance they do bypass the programming and pollution sufficiently and do connect to the Inner Being and its knowledge and wisdom, they often become frightened by the answers provided and reject the communication, because it is foreign to the knowledge imposed by the evil mechanisms of programming, pollution and indoctrination and especially religious indoctrination.

In other words, they are in danger, because of this alienation due to Evil, of denying their very own Inner Being, their very own knowledge and wisdom acquired before the Evil takeover, or given to them by connection to Higher Sources.

40. This failure to recognize the True Being within can prove disastrous. Connection is not very difficult. However, there are precautions to be taken in order to prevent further interference and pollution of the inner connection.

41. The best method of inner communication is **via meditation.**

42. SPACE COMMAND: Many people around the globe have been contacted by other consciousnesses in other dimensions which have identified themselves by a number of names such as Opus 2, Space Command, Ishtar, The Space Brothers, the Flying Saucers and so on.

Many books about such contacts have been published. The mechanisms of inter-dimensional communication are many and include meditational visitations, dreams, recalled astral travel, spontaneous regression, spontaneously-induced hypnotic trance, clairvoyance, channelling and so on.

Many of these Space Brethren have revealed themselves to people around the globe. But I wish to warn readers that the majority of these beings are not the genuine Space Brothers at all.

They are evil beings of the Dark Side and have given much false and purposely misleading information. Do not trust them. They are part of the evil trap.

They are the ones causing much anguish and grief by kidnapping people, mutilating animals such as horses and cattle, frightening others by invading their houses and causing various mental problems.

Re-examine any communication again and again. Do not accept anything glibly.

Protect yourselves at all times with the White Light and refer all information to the Being within.

Those of the genuine Space Command benefit those who are to proceed into the New Dimension.

As many around the globe have received independently, when the time comes many will be evacuated by the Space Command in their crafts. But it will not always be a physical evacuation. For some it will be an etheric one!

Who are the beings of the genuine Space Command? They are some of the Ancients who escaped when the dimension was taken over and have resided in their own dimension awaiting the day of Liberation.

They have been known by various names in the past, including the Hyperboreans. In ancient Greek literature there are references to Apollo travelling to communicate with them. The Truth on this planet of perversion, has become, with the passage of time, Mythology and then in this present age has slipped further into Fantasy and Absurdity. Hence, question any information and its source.

43. Rejoice, for this Final Generation is the period of maximal confrontation, with victory to those of the Light.

It is the period of total destruction of Evil, of total revelation, of liberation, of exposure of all the evil ones, of total victory for the True Beings, of visual success everywhere.

It is the period that has been awaited patiently for a long, long time.

Even as you read these pages, there is so much resistance to change, so much resistance to the news of what is to happen that the opposition to the Divine appears to be still in control.

The trapped beings of this planet are being kept more and more in darkness. They are totally cut off from reality.

As the Light manoeuvres about the planet to bring about the inevitable changes and as each member of the task force of the Light is placed into position, to help execute that which is to occur, the opposition is using all its energy, power and strength to further obstruct the view of those trapped.

The opposition is desperately using all its energy to barricade all the consciousnesses on the planet into a massive cocoon of ignorance lest the Light gets in and the whole evil plot that has existed for so long is exposed. As is obvious to all who wish to see, a massive awakening is being sponsored all over the globe by the Light using various means including intuition, spontaneous regression, dreams and recalled astral travels, UFO sightings, meditational messages, communication with ETs and so on.

It is no coincidence that much (and increasing amounts of) publicity is being given in this generation to Out-of-Body Experiences, Near Death Syndromes, the existence of other dimensions and so forth.

People are being primed for the future changes, even by films (such as Star Wars, Cocoon, Ghost) and by television.

Public discussions about these matters are increasing, even if they do give the evil sceptics a chance to sound off. The thrust is ever forward to an expanded awareness however, for all are to be readied for the coming changes.

Those who refuse to awaken and prepare will suffer the most.

To those in the know, it is only a matter of time before the obstructing barricade is torn asunder by the invading, victorious army of Light and all the resistance will be seen to have been wasteful, childish and very much in vain.

Similar situations have existed in our own earthly wars: As victorious allies gather their strength to invade the enemy camp and deliver the final crushing blow which will bring absolute victory, the evil, deceptive, unscrupulous hierarchy of the enemy keeps its population in the dark to the last minute. It spreads propaganda until the last moment, proclaiming eventual victory and glory when, in actual fact, the truth is the very opposite. This is what Ramtha, his spurious manifestation as the Virgin Mary at Medjugorje, Seth, Lazaris, Eckankar, Maitreya, A Course in Miracles and others are attempting to do. This ability to cheat and lie and to camouflage its grand deception has always been the form of Evil. So it is that this planet is living under deception, on borrowed time, being fed the propaganda by Evil that all is well and that life will continue much like this for a long, long time.

Nothing could be further from the Truth. And people are awakening to this fact.

This dimension and planet are about to be destroyed. The warning has been given, loud and clear, to all those who wish to listen. Most are either asleep or prefer to swallow that evil propaganda which suits them and allays their fears by creating a bigger illusion which will result in bigger fears.

Most people do not want reality.

They do not want Truth. T

hey do not want to make any effort which does not give immediate sensual self-satisfaction. For those who do want to know, I will describe the reality of the present situation shortly.

Before a description is given however, I would very much prefer that each individual connect to his/her own spiritual network of communication and realize the situation through the Self, if he/she is free enough from pollution to get the correct answers. This would give far greater authenticity and would allow a far greater degree of acceptance.

No one should accept blindly that given by another. As I have stated many times before, it is best that any information be meditated upon, be referred to the True Being within and then the Truthfulness and worth of the information for the individual can be assessed, provided he has cleansed sufficiently. And this proviso is of the utmost importance.

The **PRESENT SITUATION** (remember I wrote most of this in 1985)

Although the majority of consciousnesses on the planet are asleep or programmed not to accept information, or trapped by the propaganda that all is well, a few on the planet have been given this information.

The planet as we know it is doomed.

This news will make the True Beings joyous, for it means an end to all the pain, suffering, humiliation and exploitation to which they have been subjected for a long, long time.

Proverbs: "There will be no future for evil men, the lamp of the wicked will be put out."

Unfortunately, however, for a short time at least, this planet is now going to be swamped by gross confusion everywhere.

Attempts to prevent that which is to occur are futile.

The End is obvious to those who wish to see.

It is obvious the planet is in its death throes.

Other prophecies I had made which are being fulfilled include:

EXPOSURE OF CORRUPTION

Be aware that some of these predictions were made as early as 1984. Corruption and the Evil Essence are being exposed everywhere. This exposure has been so massive at all levels, in all fields of endeavour including government, politics, religion, medicine, law, etc. that it is no longer news.

Exposure of all corruptive practices was predicted. Such exposures will include the indictment of Presidents and official inquiries revealing extensive corruption in the governments, especially within the police systems, all the way to the top. One High Official after an extensive investigation stated: "The problems are much worse than is understood and only a fraction of the corruption has been revealed."

Insurance Company malpractices are being exposed. Much fraud is being exposed daily in the media. An ethics committee in the U.S. Senate has been busy investigating activities of its members.

As predicted, Evil is turning against Evil. Many corrupt officials are being exposed; Customs officials, chemists and doctors dealing with illegal drugs; white collar crime is being exposed more and more. Western Australia initiated an inquiry on the relationship between government and business which will undoubtedly uncover more corruption that has been hidden and covertly accepted in our society up to now. More and more drug use is being exposed in athletics and elsewhere.

TERMINAL MADNESS

People are going crazy as the conditions change so abruptly that they cannot cope. More and more are revealing their true ontological nature for all to see.

Suicides are at record levels.

Otherwise inexplicable madness is being seen already in overreactions to court decisions and the behaviour in riots from what appears to be minor provocation. The Rod King incidence in Los Angeles was just one example. The reaction there was a demonstration of the Terminal Madness that will grip people. It was just a beginning. It was just a tiny example of what is to come.

Indeed, conditions near the end will be so bad, **the living will envy the dead**. Coming riots and acts of madness will only bear a superficial semblance to those of the past. It will not take long for all to realize something far, far more interactive is orchestrating the scenarios which will spread everywhere. There will be no rhyme or reason for the acts of madness that will occur, other than the reasons given here.

BREAKDOWN OF BARRIERS

Breakdown of inter-dimensional barriers is occurring and people everywhere are becoming more and more aware of other levels of consciousness. Assisted by reports of Out-of-Body experiences, after-life experiences, ghosts, UFO stories, channelling, meditational visitations, recalled astral travel, stories of reincarnation as revealed by trustworthy people, episodes of induced as well as spontaneous regression, people are elevating their awareness in preparation for what is to happen, as I said they would.

Apart from Evil sceptics, few people entertain the thought that man is alone in creation and the pinnacle of life.

The Maya (illusion) is breaking down. In many areas, stereotyped answers of the past are seen as no longer sufficient, and people are ready for the real answers, even if these answers disadvantage them or cause them anguish.

There will be nowhere for the evil beings to hide.

All their evil structures will collapse, as will all the systems which they have used to trap the True Beings and at the same time camouflage Evil. All will be exposed in their ontological nakedness, including the religions!

COLLAPSE OF POLITICS

Do not be fooled by massive political changes around the globe. They are not precursors of peace and harmony at all. They are merely setting the stage for greater anarchy to follow, for the evil beings, who are the majority on the planet and are undergoing these massive changes, want nothing to do with peace and harmony, of which they know nothing.

They are war-mongers and are programmed to destroy themselves by their very evilness. The recent collapse of Communism gave birth to a far greater and more dangerous destructive force. The label by which it will go is irrelevant. From my Newsletter #22, March-April 1990: "Thatcher's exposure is almost complete." Her downfall was completed on November 27, 1990, when she officially resigned.

WORLD FINANCIAL COLLAPSE

The "Financial being" whose consciousness controls the capitalistic system has been fatally wounded by entry of the New Energy into this dimension and so the collapse of all systems which it sustained is imminent. Already there is worldwide recession which will become severe worldwide depression very shortly.

Capitalism, which is an evil and perverse system based on greed and unscrupulous exploitation, is ready to collapse everywhere. **Which nation is not in crisis?**

CLIMATIC CHANGES

The climate around the globe is going berserk as the devas and elements obey the instructions of the New Energy. Enhanced by changes brought on by the pollution created by the evil ones, the Greenhouse Effect, the loss of ozone, the extremes of climate, herald massive ecological disasters which will result in agricultural failure, trading collapse and world starvation at a time when international conflict is set to greatly expand.

WORLDWIDE RACIAL TURMOIL

From my October 1989 newsletter #18: * "The next few months will see increased tension in the Middle East and an escalation of hostilities against the USA, and all it and its allies stand for." That was certainly an understatement of what had been going on culminating in the Gulf War.

* "Forget the Russian bear for a while, it will be torn asunder by its own internal time bomb." This has now happened!

From my Newsletter #22, March-April 1990: * "Racism will escalate in all countries, particularly France, South Africa and India." The daily news verifies this.

Nations are fighting and will continue to fight because their evilness, under such trying conditions, is being fully exposed and they will be unable to help themselves. One has only to look to Africa where outbreaks of fighting occur daily, also to Ireland, Israel, Egypt, Lebanon, Iraq, Iran, Afghanistan, Pakistan, Shri Lanka, Central America, South America, the Balkans, Southern Russia, Indonesia, New Guinea, Yugoslavia, etc., etc., to see how the prediction of an increase in fighting and in the number of wars has come to pass. There has been the infamous Persian Gulf War whose sequelae are really yet to be witnessed!

The aware individual, instead of becoming depressed with these occurrences and the condition of the world, where violence, hatred, riots, wars, famines, hunger and catastrophes will increase daily, will know they are merely signs of things that were prophesied and are to be; that they are signs of clearing of the planet and the means of separating the Good from the Evil. Airline accidents will become more frequent.

COLLAPSE OF WORLD RELIGIONS

From my the October 1989 newsletter #18: * "The evangelizing, shouting, bible bashing, TV-based religions readily admit that they are politically motivated and that their ulterior motive is economic gain. Jim Baker's prosecution is only the first of many. Many more will be fully exposed and shown to be deceitful, mendacious demons." And they have been! Major world religions are about to collapse and not recover.

UFO ACTIVITY

UFOs, as I had predicted, are being seen in increasing numbers all over the world. People are becoming more and more interested in their presence and the censorship is becoming less and less successful.

Those involved with previous cover-ups are speaking up about their roles in fooling people.

All barriers to awareness are being torn down.

Note also that there is also war between factions of aliens. UFOs are engaged in the war.

"Info-tainment" shows such as the X-files are a great success because many are responding to the awakening prompts. Remember, some one billion people are awakening to the fact that they are aliens consciousnesses.

MAJOR DISASTERS

"Major Disasters are scheduled to occur. The consequences of these massive disasters will be horrendous and will include hunger, disease, further flooding, fires, fighting, looting, etc."

Although these have yet to occur, there have been preliminary occurrences, such as the earthquake in the San Francisco area involving the San Andreas Fault in October, 1989.

Earthquakes in China, The Philippines, Russia, Armenia, have occurred. There are more to come. There is no place anyone can hide. There is no opponent that is strong enough to withstand the New Energy. I have placed the 7 stages of the plan for the destruction of Evil in this world here to remind readers exactly where we are.

- 1 Many warnings about the time to come have been given by many seers over the ages such as St. Malachi, The Prophets of the Old Testament, Nostradamus, St. John in Revelation of the New Testament, Mother Shipton and Edgar Cayce.
- 2 A period of increasing numbers of minor occurrences with some clearing, floods, famines, accidents, etc. would herald a phase of dramatic change. The world changes in this generation herald this period.
- 3 The Message of Evacuation required to fulfil the third stage reached this planet in 1985.
- 4 The period of rejection and a short time of conflict in the population was the fourth. The media has gone out of its way to ridicule this message and the messengers. Many who have heard the message have suffered an internal conflict due to the war of essences within. The dilemma: Believe or not Believe?
- 5 More massive episodes of clearing with gross geographical changes and large scale destruction and death will be the fifth stage. We are at this threshold.
- 6 The sixth will be the era of transition of thought with progressive realization that what was revealed is the Truth. Gradually, the few are awakening and are eager to learn more about what is really going on. Periods 4, 5 and 6 overlap.
- 7 Final revelation and commencement of the Final Judgement will be stage 7.

From my April-May, 1989, newsletter #12: "... Evil is being exposed everywhere and people, as well as animals and "Mother Nature", are becoming more and more erratic.

This earth is starting to see the **manifestations of Madness** which will result from the withdrawal of the salving Divine Energy. Do not forget that the clearing of the planet involves also the Animal Kingdom, the Vegetable Kingdom and the Mineral Kingdom."

From the June 1989 newsletter #14: "Many more inexplicable accidents, chemical fires, electrical fires, etc. will occur as the lower levels of consciousness are also involved in the clearing and this includes animals also. Many of the people who read this will perhaps say that this is an explanation of natural occurring phenomena. They will say there have always been phenomena in one form or another and these accidents, wars, earthquakes, floods, etc. are merely coincidental. Let me warn these people that this is a very dangerous way of excusing and brushing aside what is happening."

"Swarms of insects, rodents and bees and birds from disrupted areas will leave the sites of destruction and invade neighbouring lands. They will cause further destruction to healthy crops, animals and humans. They will cause disease and further famine. The insect and bird kingdoms in these areas will greatly multiply initially as control is impossible.

They will eventually contest the remaining food and wars between them will lead to their own destruction eventually. These rodents, insects and birds will introduce new unidentifiable viral diseases which will cause plague-like numbers of deaths.

<http://beforeitsnews.com/media/2015/05/catastrophic-california-drought-causing-infestation-wave-of-rodents-looking-for-water-2491840.html>

"The diseases will spread throughout the world unabated. There will be no pattern or reason why one is affected and another is not from the physical point of view. No continent will be spared and the mental effects on animals and people will be as I have discussed previously."

The MAD COWS disease in Great Britain has baffled the authorities. 1200 cattle are dying monthly as a result. Massive numbers of sea mammals are dying of an AIDS-type illness, as are other animals. Elsewhere I have written: "North america and other areas will be affected by the insects, birds and diseases also and the primary production will be greatly reduced. All countries will be reduced to subsistence farming." (This week it was reported that millions of Americans have contracted Bird Flu.)

A superbug (from Iraq) is destroying all crops by eating everything. It is immune to insecticides and has created a disaster; workers have to wear masks in Imperial Valley, California. A species of Formosan termite which can eat everything and can level a house in 2 days has been found even in Florida, and is spreading in many directions. Vegetation in Australia is being strangled by the weed called Rubber Vine. The waterways are stagnant with poisonous algae. There is a severe shortage of food in Russia, the biggest country on Earth.

From earlier writings: "**Racial riots** will increase everywhere, for they are no longer riots between groups of individuals of different creed, colour or race. They are between puppets controlled by either evil or good." Riots are the result of a struggle in the upper levels. These riots are necessary to dissipate the energy of the Evil side, for as they use it, stocks will deplete and eventually expire; to clear beings from the physical; to awaken beings.

Since then the following has occurred: Conflict between the Indians and the Government in Canada has intensified; the on-going conflict between the Aborigines and the Government of Australia is growing; conflicts, some becoming riots between farmers and officials in France, England, Australia, etc. over sheep, wool and produce prices have arisen; difficulties between France and England are getting worse; the conflict in Northern Ireland is heating up again; difficulty exist between students and officials in many countries; the Baltic and other Soviet revolts will not cease.

We have certainly not heard the last of these! The revolts in other Eastern European and Communist countries are simmering; riots in USA (particularly LA), Russia, Poland, and many other countries will reoccur; more and more "Greenie" protests about such things as Malaysian timber, Brazilian timber, Australian lumber companies, mining and drilling efforts, space centre clearings, nuclear waste disposal centres, nuclear tests in the pacific by France, etc, are occurring, as are protests in Paris over social security, nuclear bombs.

In late 1985 I wrote: "Changes in the environment, in the emotions and spiritual outlook of people will occur very quickly.

Massive collapses of very old institutions, traditions and customs will occur. Destruction of the old will occur daily, as more and more of the fabric of society is torn to shreds. This is on purpose and must occur."

In the July 1989 newsletter #15 I wrote: "There are conflicts of essences in all areas around the world and unprecedented exposures of corruption, deceit and other evil practices are occurring daily.

Institutions which people have regarded as hallowed in the past are being seen as exploitative vultures and vampires preying on the hitherto unsuspecting public. Notice how media magnates and heads of vast financial corporations are being attacked and exposed."

"If you think the energy war in China has settled down, think again. Such confrontations will occur again and spread throughout the globe. Episodes will wax and wane but the intervals of relative rest will become shorter and the effects of the conflict and violence will become more pronounced. Australia, through bad governmental management and bad work ethic of the people, is going broke. And like many other countries around the world, including most third world countries, is heading for financial collapse." Look at the recessions, etc. that so many countries are experiencing today.

"Industrial strikes will occur more frequently and be more disruptive and severe..." Look at the constant industrial actions and strikes taking place in many countries by teachers, transport drivers, nurses, doctors, stevedores, etc. Many countries are undergoing protest after protest. The Japanese even protested the coronation of their Emperor.

"A breakdown in the economy of societies at all levels will also occur. These will collapse as the communications between nations and continents collapse. There will be a fall in the availability of raw materials. Hence, the factories and industries cannot be fed. Production of useless items termed luxury goods will fall first: cars, machinery, television sets, then will follow newspapers, clothing, furniture, etc. and finally food."

There is an ailing economy everywhere: Australia, USA, Germany, England, Russia, Japan, etc.; Severe shortage of food in Russia and other countries is a reality. Australia and the USA and many other countries are in a severe recession. In 1996 it appeared that countries were coming out of it, but it was only illusional, the recession remained. People are being laid off in the hundreds of thousands, car production is down, sales have tumbled, businesses are closing, unemployment figures are record high with more to lose their jobs. Farmers are ploughing under the fruits of their labour: pumpkins, beetroot, vegetables, pineapples, citrus, etc., as they cannot afford to harvest them. The fishing industry is collapsing. Fish are disappearing.

"Paper money will quickly lose significance and the inflation rate will soon cause total collapse of the banking system." Banks are acknowledging massive amounts of uncollectible bad debts. Many have admitted huge profit slumps. Merchant Banks acknowledge problems. Note the

financial collapse of many so-called entrepreneurs. Note the trade war between the USA and Europe. All over the world, people's fear, apprehension and lack of confidence are far greater than one would normally expect from economic or climatic changes.

Most admit they have no confidence in the future. Many are seriously and openly questioning the existence of a future and at the outer mind level they do not know why they feel this way.

Americans, in surveys, report that they do NOT feel like winners, inspite of the fact that they have been told they have won the Cold War against Communism and certainly appeared to have won the Gulf WAR. Their discontent and insecurity is not all due to the economic gloom! Anti-Japanese sentiment (which is really racism) is present everywhere in North America and increasing. Most admit it is something to worry about. We all know, do we not, that xenophobia is a symptom of inherent insecurity. **No government has solutions.**

As yet, most people cannot truthfully identify the source of their exaggerated fears. They blame any external factors they can find. But the true basis of their fear, which is deep, deep seated, is the intuitional realization that the END is near, and they are to account for themselves in a manner that they would prefer not to.

From my book "Essential Gnostic Truths": "Medical science will regress as more and more virulent endemic diseases appear....as the new diseases come, the treatments of medical science will become more and more useless. Plants will desiccate and no longer regenerate. The animal kingdom will be cleared. The changes will be slow at first, but then accelerate as the Evil Energy is totally neutralized." The rate of extinction of fauna and flora is unprecedented. The plant kingdom IS rapidly disappearing, especially as forests are being cleared. Fires are taking their toll of the plants and animals.

Recent burning of many sheep and large areas of land has occurred. Poisonous algae is killing waterways in Australia and will appear in other lands also. Consider the following in relation to the war situation in the Persian Gulf, the so-called peace conferences, etc. -- taken from my book "Essential Gnostic Truths":

"Friction and hate leading to violence and anarchy will occur in what one would have deemed the most unlikely places, as the world heats up for its own annihilation...The degree of perversion of the various parties involved will never cease to amaze people..... At times it will appear that the lion will sit with the lamb. But do not be fooled. This is only to allow the lions to get close enough to the lambs so that they can devour them. And the lambs are not fooled either. They let themselves be sucked in so that they can be close enough to the lions to poison them."

"The destruction of this planet...by war, by disease, etc., is occurring. There have been many, many mechanisms. We have accidents all over the globe, motorcar accidents, and airplane accidents. We have flooding, earthquakes, volcanoes, typhoons, tornadoes, AIDS. There is also going to be a nuclear war. We have the Greenhouse Effect, we have depletions of the ozone layer and so on. We have drugs that are killing people, more and more famines, droughts, etc...."

"The USA and Russia will be greatly affected, as will be Europe and the Middle East, Africa. South America and Asia will be more affected by the consequences of the nuclear war and not by the bombing. Mass starvation, disease and pestilence will be their lot..... Effects of a nuclear winter will be unavoidable. Israel will be totally destroyed in a flash...

This war will not last long, but it will involve all nations on all continents and will kill between one quarter to one half of the world's population. Hostilities will greatly increase between all nations and the scene will be very explosive. In the meantime, many more people will be absconded by the UFOs. Many more people will simply disappear.

"UFO sightings will dramatically increase and fear in communities will also increase. There will be more and more talk of nuclear war until people are aware of its possibility and awaken to the reality of the imminent danger. But they will shrug the danger off, even as the politicians of the countries concerned prepare for the nuclear combat. They will be shortsighted and non-caring, for they will have been programmed to attack and retaliate.

"People will talk about the possibility of a nuclear war, the physical effects of the war, the aftermath, the deaths and the methods of avoiding it, but.... "Even to the last minute people will refuse to believe their eyes and yet they have been warned again and again and again. ... The war will start as a minor exercise in the Middle East. Any of a number of nations are itching to launch a nuclear attack on Israel and Israel is more than primed to attack or retaliate.

"Almost instantly as the first strike occurs, the consciousness of the bombs themselves will make itself more obvious and there will be a natural progression to expansion and escalation. This means that the more powerful nations will be involved. England will be bombed. And then there will be haphazard exchange throughout all the continents."

The following is from the June-July, 1990 newsletter #24:

"Do not be deceived by the recent inactivity of the clearing process. A major catastrophe of unprecedented proportions is well overdue. (Planet X) there is a buildup of clearing energy and a back-log, so that once the process begins it will be more devastating in a shorter time span. And this is the case now. Because certain changes have been delayed, the effects will be more massive, more concentrated and more devastating than previously scheduled."

All levels of the societies of this damned planet are Evil. And all the counterfeit beings and demons are rushing headlong into their abyss of spiritual annihilation, for they realize, in the subtle levels at present, and shortly on this level, that ones of their ilk have no place in the re-established Divine Order. Many True Beings who are to continue in the New Dimension have already had a greater portion of their consciousness transported, via spacecraft, to **Intermediary Villages**, in readiness for entry into the New Dimension. This has not been revealed before.

Only blind fools or evil-programmed liars cannot see the End coming. Look beyond the scientific jargon and mumbo-jumbo being used by scientists, who are usually the most spiritually ignorant members of society and whose technology has unwittingly accelerated the march to this planet's demise. Their scientific answers are meaningless. They always have been. They have

always been at a loss to explain things of a spiritual nature and that is because the Modern Religion of Science and the knowledge of this world have always been part of the Evil Illusion.

When it is time, it will escape no one's notice that a Divine Force is acting on this planet more and more. It has always been present, in bitter combat with the Evil Essence. That is the Celestial War. It had been kept from the sight of all trapped on this level. Now however, the presence of the Divine Force will escape no one. Those who have persistently denied that such a Force exists will be the ones who will fear the most.

The symptoms and signs of destruction of this planet are obvious to all who wish to see. Those who refuse to look will be forced to look eventually, by their own wickedness, as they try to escape the doom that awaits them.

And no matter how forcefully and always deceitfully, the New Age fools shout that they are "healing the planet", they too will sink into the depths of despair as the Truth hits them like a hammer on their heads. But it is all their own fault. They have no one else to blame. They are part of the Evil Illusion that tried to prevent Divine rectification. Hence, like the illusion, they will shortly exist no more.

This is why they vehemently deny what is going on. They are programmed by Evil to lie to the very last moment.

The realization of the end of this planet should not be a sad one. It should be the start of all the Joy and Happiness one can muster, for the end of this horrible, evil planet means the end to all the nastiness, wickedness, disease, war, injury, suffering, exploitation and death. No one could possibly wish for these to continue. And apart from bringing an end to these impositions of Evil, it means the New Beginning of Glory, Love and Eternal Peace in a place where Evil does not and cannot, exist.

Make no mistake about it. This Celestial War that is resolving has been a long, bitter one with many casualties. But the outcome was never in doubt. It has taken great effort to rescue the trapped True Beings. Only one with great LOVE would go to so much trouble to affect such a rescue. The Rescue Operation has been an act of LOVE by the Divine Energy to liberate the Beings who have remained faithful to IT.

THE FUTURE

There is no need to panic or feel sad. In fact, the opposite is true. One should feel exhilarated and joyous at the thought of the future. It is wonderful to contemplate it and one can realize that not only are roles about to be fulfilled, but also all that which was hoped for will be accomplished. There is no greater satisfaction than a job well done and well done it will indeed be. There is no other reason for existence, other than to accomplish that which is assigned by the Highest Authority.

So much happiness and joy will result from this Rescue Operation once completed that it is impossible to fully appreciate it at this moment in the physical. But the anticipation of that love,

joy and harmony can be shared. These feelings will begin to filter through more and more as the completion of the work approaches the end point. Of course, there will be unpleasantness. But it will not be difficult if you are prepared for that which is to come.

Any battle is difficult and this is the biggest battle of them all. But being fully prepared, you will cope admirably. Hence, the degree of difficulty is no greater than at other times, even though the significance of it will be infinitely greater. No one said it would be easy.

Patience is required at all times, for each stage is a preparation for the phase to follow. As the evil ones awaken to what is happening and realize more fully that their total destruction is at hand, they will put up as much resistance as possible. More than that, they will retaliate with whatever power they have, but all to no avail. They will be exposed and will show their true colours with the hate and venom of the truly evil and damned. But it will matter not. They will be totally ineffective in any attempt to block the New Energy. The evil ones will not cope with having their illusion totally destroyed.

REACTIONS

Reaction to this will be anger and fear which the more evil ones will not show until the very end. They will hide it at first and nervously laugh the news off as the sayings of another "Doomsday Prophet". Let them make this mistake. Their laughter will not last long.

As things begin to go wrong around the globe more and more, their innermost fears will be exposed and people not of the Light or unawakened will start to panic. Fear will drive them insane, for the enormity of what is occurring will hit them like a bolt of lightning from a blue sky! There will be no refuge in numbers, or in so-called authorities of Church or State. Equally, the minions in these hierarchies will be in a state of shock as the realization filters through to them also. The only direction those who miss the insanity can go is inward in order to admit the Truth of it all. Rejection is no answer. There is no other way of getting the message across. No matter how much beings of Light are attacked, they must know that the power of Truth is with them and their support is strong enough to withstand it all.

The enemies will get nowhere. The more they howl, rant and rave the more will they suffer as a consequence. Why should the Light bother, or waste Its time to tell the evil fools what is going on? They have never listened before and they will certainly not listen now. Let them find out for themselves the hard way.

Of course, when things happen they will have a very abrupt and rude awakening. But that is not the Light's concern. They have ridiculed attempts to tell them often enough. It is time that they learned things the hard way.

The more one awakens on this plane, the less satisfying does existence in it become. When one sees the rottenness, perversion and misery and realizes it is all an evil trap, the only thoughts one entertains are ones to break out and put an end to it all by destroying the evil energy patterns and liberate all those trapped.

Everything is an illusion here. Nothing is what it seems, not even the pain, sorrow, anguish and frustration. They are products of the environment and only have an existence in this local dimension. They are not worth considering in the overall plan of things, so forget about them.

When these are forgotten and ignored, they can have no power over us. Nothing is as it seems. Victory can take many forms, but it can still be masked to the very end on this plane. The trick is not to be fooled by this camouflage. See through it and you will partake of that victory sooner.

Do not let anything affect you one way or the other. Nothing on this plane is worth wasting energy over. When one does not react to anything, then the true vision begins. When no occurrence has any effect on the emotional body and for all intents and purposes one is immune to the variations of day to day living, then the power of the Spiritual Being within can manifest.

When frustration, agitation, impatience, disappointment, anger and even joy can be swept aside, then one is ready for the coming world changes and ready to fulfil his/her role. When none of these things affect the general day to day workings, then there will be no sudden energy losses, no sudden depressions, no sudden changes in direction, no sudden crises.

It is futile to try and teach the robots these things or to try and change their mind about things.

The programming is far too intense to allow any sort of change. The Truth is far too removed from the awareness of most people to allow them to grasp any part of it. The trap has just been too deep. They would need to overthrow too many of the processes which hold them down. And for most that would be too much of an effort.

Those who have realized what is going on are with the Light all the way. The others will need to experience the change in order to have their awareness stimulated to any great extent and to have their traps revealed to them. Most people fear looking foolish. They dread standing out from the crowd lest they are made fun of. Of course, it is their EGO which is affected and they are incapable of cutting it off. Sooner or later something will have to break in the wall of resistance against the Truth. Evil beings cannot resist forever. And as awakened beings push more and more, the resistance will be broken faster. It is a test of wills, they must be pushed until they break.

There is a huge team working together to produce the desired effect for the Light. No one is alone when working for the Light. Every little step is difficult because we are pushing against the tide. But soon, very soon, the tide will change and the resistance will decrease. Beings of Light just have to believe that it will be so and have patience until that time arrives.

Every degenerating aspect of this planet will accelerate in an unexplained manner so that its destruction and that of its inhabitants, vegetable and animal entities as well as human, will occur very quickly. Scientists will have no real reasons as to why this is so, they will simply measure and observe that it is so.

There will be general deterioration of all aspects and things such as accidents, violence, general abnormal behaviour, which can be described as generalized madness, will continue to occur.

Courage is needed in the face of adversity, not when there is no danger. It is now that the phase calling for courage in a sustained form is being entered. And as each is lashed by demonic pressure from all sides, the mettle of which they are made and the courage possessed will be exposed and expressed. Effort is needed. You cannot succeed in your personal war without personal effort.

VICTORY FOR THE LIGHT IS ASSURED

Although victory is assured, the gauntlet still has to be run. No pain will be felt if the focus is the end point which contains that victory. Those who falter and/or stop fighting will feel the pain the most. But those who are determined to beat Evil will not feel anything, nor will they be bruised.

Those who vacillate will be bruised. Breaking of the evil energy patterns on this plane depends on the ability of True Beings to confront them. The faster confrontation occurs, the quicker will they collapse. One needs to enter the eye of the battle and help distribute the New Energy which will fragment those unwanted energy patterns.

Everything has been prepared and supplied. There is an ultimate outlet for that energy on this plane. If Light warriors do not function well, the energy cannot do its work. But they will do well. There is no chance of a mishap. **Delays can occur**, but no failure is possible. One needs to remain patient, flexible and have infinite faith. Remember Henry Longfellow's words:

"Sorrow and silence are strong, and patient endurance is godlike."

True Beings are all in this together. We are all involved and all working for the common goal. It is in our interest to see that the best solutions to problems are found. Each True Being needs to become a Warrior. No experience is wasted. All can be put to good use. One should not see anything as a negative experience. Each teaches something. Each warrior will separate off and perform the job for which it has been trained. Each will be responsible for that sector of the work. The work is inter-related and to some degree the speed of progress will depend on the performance of each individual. The final stage will not last long at all.

To some the world appears to spin on and on and they seem to be without a thought to that which is really going to happen. But as soon as something of massive proportions does happen, the focus will be on the possibility of planetary destruction. Other attempts to awaken these zombies have failed. It will now be necessary to shock the population into some sort of realization by the occurrence of such an event. Nothing will have prepared them for the degree of destruction which is to come. **(Again –Planet X)**. Most will have refused again and again to even entertain the possibility of such an event. Well, they have only themselves to blame as many attempts have been made in the past to bring them into the knowledge of the Light.

Many pay lip service to the Light, but give them the smallest of tests and they fail miserably. That is why a minority is to proceed into the next dimension. What chance is there to find a fertile mind for the Truth? A very small chance indeed! What chance is there to find support in the crowd? Almost nil. You should not be discouraged by these facts. Rather you should strive even more to find that small number scattered about the planet.

Can you not see the problem confronting the Light? There are so many beings and yet so few are to proceed into the next phase. This planet has failed miserably, just as all aspects of the Evil Creation have.

The enemy of the Light will attack in the subtle levels in retaliation, but apart from this there is little that it can do. If you remain steadfast and strong the Evil Beings will weaken. There is nothing they can claim as a victory. Override the weak physical vehicle which one needs to use on this physical plane. See the physical and its weakness as a total obstruction to the work, set there on purpose as a precondition to entering this plane by the evil Demiurgos.

This is now the period of maximal confrontation, of total destruction of Evil, of Total Revelation, of fulfilment of the roles, of exposure of all evil practices, of identification of all beings, of total victory, of visual success, of joy and extreme elation, the period that has been awaited for such a long, long time.

Those of Darkness will not know what hit them. The End will be so fast and furious they will be shocked right out of their minds.

Total victory is assured.

No one and nothing can change the course of this war and the triumphant victory of the Light. All Honour and Glory will go to the Faithful True Beings.

Even as you read this, things may appear slow in this dimension and that is because much effort is needed to produce an effect. There is constant inertia to action. And this results in stagnation which allows a sort of spiritual rot to set in. Finding the energy to begin an effort against the inertia takes time and that is why events appear so slow in this realm. Until the energy patterns which provide the inertia are destroyed, it will remain this way. Once they are destroyed, the inertia will disappear and the effort required to go against the Evil System will be much less. As more new work is produced, the fear and insecurity of the evil ones will increase and they will not know why.

Every opportunity needs to be taken. Every chance to create new work as well as to break old energy patterns needs to be taken. All new things will produce the effect the Light seeks, so that the old can be destroyed that much faster. So live for the new, the future, the creative and productive aspect. In this way, the old will be swiftly destroyed.

RELUCTANT ACCEPTANCE

In how many ways does this message need to be spelled out, and disseminated, before people start understanding it? How long will it take them to realize what is going on? When will they run out of trite answers to explain away the phenomena and really acknowledge the Truth of things?

Alas, some will never hear this message even though the words reach their ears. Many others will never realize the full significance of what they are hearing until it is far too late for them.

And the minions of evil, those of the demonic essence and the counterfeit beings, whom they have been able to sway, will never run out of spurious answers.

They will explain away everything in the light of their mendacious doctrines, just as the religions have done for countless eons. They, including the so-called scientists, will never give the real reasons for the planetary occurrences because they are programmed like simple computers to spew out false information.

There is no need to understand the mechanisms behind the various actions which are occurring and which will occur more frequently in the near future. The need is simply to acknowledge in the outer mind that what is occurring is the END TIME for this planet as prophesied long ago.

Those who fail to make this acknowledgement either because they are asleep, or evil, or brainwashed, or because it does not suit them to make it, are the ones who will suffer most, as I have often said, for they are the ones least prepared for the eventualities.

The shock resulting from sudden, forced expansion of awareness and the realization of those things which they have for so long denied, will have catastrophic effects upon them. Many will simply not recover. This all stems from the inability or unwillingness to see the Cosmic Duality within all Levels of Consciousness and the resultant Celestial War from the clash of the Essences forming that Duality in this sector.

Most will not want to see this war, its effects, its resolution, etc. because they want to be blind and because the mere thoughts of the consequences of its resolution are just too horrendous for them to contemplate. There is no better pointer to their Evilness than this unwillingness to face reality. It is not just foolishness. It is Evilness.

Many will joke about this message, make light of it, scorn it, deride it, even abuse it and me. But they cannot hide the real fear within them. Look carefully and you will see this fear hang over them like a hovering black cloud. Such beings cannot escape their own Evilness, no matter how much they deny this Truth.

It will be with extreme reluctance that many will eventually resolve the conflict within them and face the reality of the situation on this Earth by admitting the only possible explanation of what is occurring. Nursing their fear, they will silently bow their heads and admit their defeat. They will admit that the message was true and, in fact, the only tenable explanation is that the physical plane will come to an end.

Such people will be the True Beings, many of whom have failed, and the many counterfeit beings who still respond a little to the Love of the Mother. Hence, some 60% of the population will acknowledge and accept the realization of the Endtime as it approaches and will admit it.

The remainder will be the more overtly evil ones of a Demonic Essence and others taken over by them. They will also have this realization that the END is upon us, but they will refuse to acknowledge it openly until the very End.

This acceptance by the majority will herald the 6th Stage of the Plan of Clearing.

The 5th Stage will have been the occurrence of major disasters. And the 6th Stage (the stage of reluctant acceptance) will allow occurrence of the 7TH and FINAL STAGE, the descent of the "Father Energy" onto this plane with full Power and Glory to initiate the process which the majority dread the most, namely, Judgement and classification of beings.

There is no way that these phases of the Plan of Clearing can be avoided. Even delays have been catered for but they are minor delays, so well has the Plan been proceeding on this level.

There is nothing the majority can do except wait and see the unfolding of this grand drama onto this plane. It will be the most spectacular occurrence ever witnessed in this dimension and it is a great pity that so few of the witnesses will share the joy of the Light with its manifestation.

These few will be the ones who realize their Liberation has arrived.

The others (by far the majority) will be filled with too great a fear and dread of their impending fate to even have time to look carefully at the miracle of what is happening. What fools they have been! Do they deserve anything better than what they receive?

They have been a scourge on the face of this planet, in this dimension and a thorn in the side of those of the Light for so long that no one could possibly mourn their total annihilation.

Who can weep for the destruction of cancerous cells? No one! And likewise, no sorrow will be lost on the miserable, evil creatures that have rejected the Light on so many occasions.

Ontologically, they are no different to the cancer cells healthy beings reject and dread so much. For, like those malignant cells, they too can cause physical and spiritual damage to any healthy True Being they invade.

COMING VIOLENCE

Outer mind madness will occur in the end time.

The End will not be pretty. It will be horrendous. But in the few remaining years of this planet, as the Evil bombarding energy patterns are destroyed and replaced by the Divine patterns formulated by the descending New Green Energy, a change in the effect of external patterns on the physical minds of the population will be seen.

The programming many people receive from the other Evil agents of programming, pollution and indoctrination, particularly food and drink, will clash with the thoughts which are implanted by the New Green Energy patterns.

They will not be able to accept all the New Energy patterns for their outer minds will be unable to contain the frequency adequately. But sufficient energy will impinge upon them to make them at first vague and confused and then to act in a manner most contradictory to their previous programming.

They will be motivated in a different way and being able to only contain snippets of the New Energy patterns, they will demonstrate an erratic behaviour which will become absolute madness eventually. Hence, they will nonsensically attack one another without the slightest reason. They will say things to self-incriminate and expose others whom they have always protected. They will apply solutions to problems which will obviously be disastrous. This we are witnessing even now. (Think of the stupid never-ending war on Terror!)

Perverted traits will be exaggerated so no one will be safe and natural instincts will be distorted so that mothers will lose the maternal programming implanted into them. They will abandon their children and families and some will attack them and even cannibalise their own newborn.

Males will exhibit an excessive programming of the mechanism of EGO and the slightest provocation will become a fight to the death. Such behaviour will cause havoc in the communities. Domestic violence will escalate uncontrollably. This trend is very obvious even now.

Countries will respond in similar fashions for they too have collective egos. Hence, peace will be impossible. This is how Nuclear War will start. The result will be massive destruction of vast numbers. Those of Darkness, responding to the evil frequencies, cannot contain the New Energy patterns adequately and will become confused, demonstrating this destructive madness, while those of the Light who can contain the new patterns will lose their confusion and become both more aware and more receptive to further New Energy.

True Beings will begin to awaken as if from a long, drugged sleep which had them entangled in a sordid nightmare, for in truth that is what existence on this plane has been. And as they awaken they will see the obvious impurities of the plane, the obvious traps, the deception, the exploitation and the insincerity of all those who held them bound, trapped and exploited. They too will become wild with anger and they will seek out those who enslaved them. They will be programmed by the new patterns to actively destroy any remaining constraints.

And so the True Beings will retaliate with a viciousness undreamed of by the evil ones, for with their awakening and the power of the New Energy will come an undreamed-of strength. They will throw caution to the winds and attack with all the righteous anger and indignation of the severely and unjustly oppressed. The robots will have no answer for them for they will be too confused to resist. The roles will have been reversed at last and it will be the robots that will be on the receiving end.

And so it is that brother will fight brother (where their ontological essence differs) and sons will attack fathers as daughters attack mothers. Black will attack white, the young will attack the old, the strong will fight the weak, and the rich will fight the poor and so on. And in the midst of all this, natural disasters will reap havoc also.

But those responsive to the New Green Energy will know what is going on. The ones to continue will turn more and more to the Light within and listen to that Inner Voice. They will hear the instructions which will prepare them for evacuation. And these will keep their allotted appointments.

Those of the Light who have failed will also know what is going on and they will fear the days as never before. They will be less confused than the robots but just as fearful.

The robots' confusion will turn to great fear as realization of the END TIME occurs in them. And as there is nowhere to hide, they will attack with unmatched fury those of the Demonic Essence among them, for they will realize it is these who have been the reason for this massive destruction. Those of a Demonic Essence will suffer horribly at the hands of those whom they have deceived.

The occurrences of the last weeks and months of this planet will be so abominable that those to continue into the New Dimension will be spared the anguish of it all.

They will be evacuated in three groups.

Those of the Light should ensure they practice adequate protection and cleansing of the Centres of Consciousness and adequately avoid those obvious agents of evil programming, pollution and indoctrination so that they can more readily contain the New Green Energy patterns as they occur. In this way their awakening will be swifter and reception of their instructions will be more accurate.

These pervading patterns will affect all classes of consciousness including animals, vegetation and the mineral world. Hence, these will also demonstrate inexplicable erratic behaviour.

Animals will become more aggressive and attack each other as well as humans.

Plants will die while others become poisonous and grow more profusely, etc.

The mineral world will respond with the massive upheavals of volcanic eruptions, cyclones, typhoons, earthquakes, etc.

Elements will also react erratically. Compounds, molecules, atoms will not respond with the same predictability. Hence, the laws of chemistry and physics will seem to no longer apply. (This has been noted since I wrote this by the variation in atomic decay of radioactive elements).

More industrial accidents will occur as a result, particularly ones caused by fires, for compounds will have varying flashpoints. And this will be inexplicable.

The fish of the seas, crustaceans and even plankton will diminish as they are poisoned by the pollution, by excessive UV radiation reaching the surface of the planet due to loss of the Ozone layer, and by the negativity of plant life. This will cause further starvation in humans and also many, many cases of poisoning.

<http://rt.com/news/255241-atlantic-ocean-dead-zones/>

So many will be poisoned in fact, that people will avoid seafood. There is no time left for the great majority to be affected by AIDS. They will die of other causes; such is the brevity of the period until total destruction of the globe.

The beginning of the changeover of the energy patterns will be marked by the erratic and inappropriate responses of world leaders to their problems. It will become obvious. Their behaviour, thinking and subsequent actions will increase world tension, conflict and war and in what appear to be most unreasonable ways. But their populations will agree with them, thus plunging the countries concerned into cataclysmic cycles from which only destruction can come. Once the cycles begin, the events will occur with ever-increasing frequency so that a matter of months may be all that is needed to destroy all of life on this planet.

Be patient, prepare and watch. The unmistakable signs are there for all to see. Friction and hate leading to violence and anarchy will occur in what one would have deemed the most unlikely places, as the world heats up for its own annihilation. The degree of perversion of the various parties involved will never cease to amaze people. The cunningness and overt Evil will be obvious parameters of their true and hitherto hidden ontological nature.

As fury escalates there will be no winners. All those of the Evil Essence will be losers. All will be caught in the process of being cleared out of this useless and terribly evil plane.

All the evil beings will be cursed by their own evilness.

And they will see that evilness of theirs rebound back onto them to cause them untold suffering in the same manner that they caused such things in others.

Again and again I repeat that Evil and failed beings have only themselves to blame. They had been warned often enough. But they did not heed the warnings. They convinced themselves that a time such as this would never come; a time of total correction of this system and a time when they would be held accountable. As was often said to them and to all, a time of Judgement would come. That time has come. It is in this generation.

This is the time of the end!

This is the end of time!

In this book I have set before you the eternal metaphysical questions:

Who are we?

What is going on?

Where we are going?

I have introduced a major Key (the WAR between Good and Evil and the fact that this dimension had been run by an Evil Demigod) for the understanding of esoteric (metaphysical) philosophy.

I then went on to describe why there is a War, what changes occurred in some areas, particularly in our vehicles of expression (physical bodies) because of the war.

I revealed the existence of the two major creations: the True Divine Creation and the Evil Creation of the demiurge, with its Counterfeit beings and demons.

Then details were given of agents and mechanisms by which we are programmed.

After discussing our anatomical, metaphysical structure, the functioning of units of consciousness, the existence of the war and programming, examination of the mechanisms of psychic phenomenology, clairvoyance and prophecy was carried out.

Details of entities which can invade and/or affect human consciousness were also given as was a classification of consciousnesses using these physical bodies at this time.

The existence of Evil was discussed and some details of its Underworld were also revealed.

The significance of prophecy and its apparent inaccuracies were also examined.

A few topics of interest to the metaphysician, namely Abortion, Reincarnation and Karma, Healing, Meditation, Turning to the Light and knowing one's identity were detailed. I have concluded this volume with a commentary on what I had said would happen to this planet and what is happening.

*

WHY IS THIS INFORMATION ACCURATE AND ITS MESSAGE TRUE?

You will get the physical answer as the planet breaks up. To answer the question philosophically, you need to review the information revealed in these volumes.

I have done the following:

- Explained the situation on this planet from a Gnostic perspective.
- Identified the Evil demiurge and its mock creation.
- Identified the War of Essences in which we are caught.
- Explained the concept of Maya, and why this world is called illusional.

- Pointed out the effects of Evil programming and its agents.
- Explained the process of Thought Implantation.
- Pointed out the Evilness of beings.
- Revealed the 7 Classes of Consciousness.
- Hinted at the Evilness of Religions. More of this in Volume 3.
- Identified the material manifestation as Evil.
- Explained the origin of Evil from a Celestial Error.
- Explained concepts such as Centres of Consciousness, Demonic Possession, Channelling, Sleep, Dreams, Pollution of Prana, etc.
- Explained in detail the Existence of True and Mock beings.
- Given the metaphysical structure of humans.
- Revealed the intermingling of the two creations.
- Explained the existence of kidnapped consciousnesses, the existence of walk-ins, stand-ins, body-snatchers, etc.
- Explained the Evil trap of Re-incarnation and Karma.
- Explained the evil exploitation of energy by all forms of Suffering.
- Given the 10 different types of consciousness in human shells.
- Given details of how, when and why this mess will be cleaned up.
- Explained Psychic Attacks and the need for protection at all times.
- Explained energy extraction by the Evil System and regression of human consciousness into animals and plants.
- Explained why society is Evil.
- Pointed out the futility of "Saving and healing the planet".
- Identified Lazaris, Ramtha, 'A Course in Miracles', Seth and others as products of Evil.
- Explained the Breakdown of Inter-dimensional Barriers.

--- Exposed the Myth of the Brotherhood of Man and the Evil Doctrine of Monotheism.

--- Given the connection between UFOs, ET consciousness, Channelling, Evacuation, Space Command and the Prophets of old.

Elsewhere my information has identified the Special Being, The Dreaded Judge, as being none other than King Arthur who was recognized as the Liberator by the Gnostic Druids 1500 years ago. This was recorded in Celtic Mythology.

King Arthur was, and is, none other than Haidakhan Babaji, also known as Lord Shiva, the teacher and "Father" of Jesus. I also connected the consciousnesses of Nostradamus, Edgar Cayce, St. Malachi and others and explained the prophecy of "The Generation Which Will Not Know Death" as well as the mechanism of, and need for, the Process of Transmutation.

I tried to describe the Endtime and tried to give you all the facts with which you can make total sense of the Madness which has gripped this planet.

I have also revealed that

- the Etheric and Astral worlds are evil-created illusional worlds, visited when people die, and needing to be totally destroyed forever,
- that the consciousness of all the 4 lower classes are trapped under an astral ceiling 400,000 km above the surface of the Earth and
- I have exposed the fact that Evil Guides and channellers are purposely misleading people.

The ultimate acceptance of any Truth or Revelation cannot be learned or acquired from outside the self as the churches try to claim.

The ultimate acceptance comes from the realization that this Truth mirrors the Truth within the individual.

It is not a case of believing but of KNOWING!

Many know the Truth of things is different to what the distorted evidence of their physical senses indicates.

And many believe in things they know are of the Truth even though they cannot, at this time, adequately present physical proof of that in which they believe nor even adequately verbalize them.

This is not the result of blind faith but of the Inner Knowing which lights up the path of Divine Beings and fuels their efforts to return to pure realms.

My last piece of advice:

Beware the confusion of the coming days and do not judge in ignorance as fools do!

POSTSCRIPT

There has been a massive amount of information available through my writings explaining exactly what has happened to this plane, what the present situation is and what is to happen.

But as massive changes around the globe begin to occur, many will cry out that they were ignorant of the facts. They will claim that they were not told, that this vital information was held from them. Such an excuse is untenable.

Great efforts have been made to broadcast my information. But the majority would not listen.

Not only that, every time an attempt was made to spread this news, those in control of the media saw fit to block it by a number of means. They have ridiculed the concepts and me. They took facts out of context so that what I said appeared nonsensical. Many will still want to use the excuse that they were unprepared for the eventualities, because they were not told. The Evil Systems and they themselves must be blamed.

It has been a most difficult time trying to reach the True Beings in the populations to give them this information. People do not want to hear this information. They want to hear what suits them at the time. Most are too busy with their useless pursuits to even stop and think about what I have to say.

"The Earth is coming to an end!"

Nothing can be more dramatic than that. And yet they drone on, oblivious to this message. Others are programmed to think they have heard it all before and as far as they are concerned, it is all one big joke, because none of the others they have heard about were correct anyway.

But sooner or later, one of the messengers with this information will have had to be the real thing. Why not me? Considering the attacks on my sanity and credibility, how many have taken the trouble to truly examine what I have written? Very few indeed!

How many have understood the books?

How many can appreciate the answers I have provided? Very few indeed!

Is it sufficient for me to let things be, to let sleeping dogs lie and say "I told you so" after the event? Certainly not!

I will continue to disseminate this message for the benefit of the few who will profit from it. But alas, I fear that the majority will reject it all as before and the same situation will remain. And I will tell them exactly that in the end: "You would not listen and yet I told you so".

And, of course, this is very much due to the evil consciousness which controls this plane. It has such a stranglehold on the systems and is able to dictate so effectively what is to be disseminated and believed, and what is not, that the result on this plane has always been utter confusion.

It is on purpose that there are so many confusing philosophies on this plane. There have been so many spurious prophets that people have been turned off by them. Hence, now that this information is presented, the majority, who are evil anyway, are programmed to reject this as another spurious outburst from someone whom they think has nothing better to do. But I have warned them repeatedly. This is not the case at all. Ultimately, they will only have themselves to blame.

Who will the True Beings who missed out on this information and the preparation that was possible through it, blame? They must first of all blame themselves, for they have allowed themselves to be dictated to by the evil minions.

They have allowed themselves to be trapped by the Evil Systems which they helped create, and to be programmed by the mendacious institutions, namely the Religious Institutions, that they help support.

They have always had the choice to burst out from these evil traps and seek the Truth or remain in them.

But most True Beings were far too contented physically and far too programmed mentally to even attempt escaping from the evil traps. No, they only have themselves to blame. They cannot accuse the institutions which bound them completely nor can they blame others for not shoving the information more forcefully down their throats. It is they who rejected it. It is they who would not listen. Of course, they will be very angry with the minions and fools who led them astray and kept them in total spiritual darkness and in total spiritual ignorance.

Those who will think they could have spiritually benefitted from this information but failed to do so because they did not hear of it early enough are the minority, of course.

The majority are the evil, counterfeit beings and demons who would repel this information to the very end, saying that what is occurring around them is impossible. Alas, such is the tragedy of this plane that the cruel, mendacious Archons and Minions of Evil have had control of most of the True Beings' minds almost right up to the very end. There is nothing that can be done with them except destroy them totally forever, for they are immutably evil!

This information is really for the True Beings who are the minority in the world's population and who are still faithful to the Light.

Even if the evil ones block it off by various devious means, the ones to be contacted will be contacted. The energy will do its work. The evil ones often remark that they are seen as evil beings because they do not accept this information. I have never said that. They identify themselves as Evil, for inwardly they really do know that they are hypocritical, evil beings.

MY THOUGHTS FOR THE WEEK

EXPOSING ANOTHER DEMON

Here is a case of non-spiritual pseudo-religious bunkum.

Supposedly, a priest called Padre Pio wrote this for the world.

It is use of the forecast of Planet X and the Pole Shift to inflict more terror than understanding, and to trap the gullible into the insanity of Catholicism.

<https://www.youtube.com/watch?v=0I05O7eOkto>

I was not the slightest bit awake when I toured Italy in the early 1970s and visits Father Pio's confessional in the Cathedral.

The stench in the area near is confessional was most repulsive. It ws not a normal smell. It felt like something coming from the depts. of the Earth. I was not yet spiritually awake but nonetheless, I knew the place and its smell were not holy or good!

I had the same experience at Lourdes, and I could not get away quickly enough from both supposedly 'HOLY' sites

Padre Pio was a demon for sure!!

His powers were those of a Class 5 demon, in the manner of ‘Dynamo’ who I mentioned in previous writings (Post 14 and my website page 10).

Here is proof of his demonism that I found a long time after:

Padre Pio believed the love of God is inseparable from suffering,

and that suffering all things for the sake of God is the way for the soul to reach God.

WHO ELSE BUT A DEMON, ACTING FOR HIS MASTER,
THE CHIEF MOLOCH, WOULD ESPOUSE THAT SUFFERING,
WHICH DRAINS THE DIVINE ENERGY FROM TRUE BEINGS,
IS A GOOD THING?

Don't you see that it is a way of feeding the Evil Ones?

And what does that make the Catholic Church and its Doctrines which support

SUFFERING as much as possible?

Is it not EVIL too?

Suffering is an evil instrument for the destruction of True Beings!

The Harvest is meagre

Evil's use of Murder for Peace

And, Using BS to cover the BS

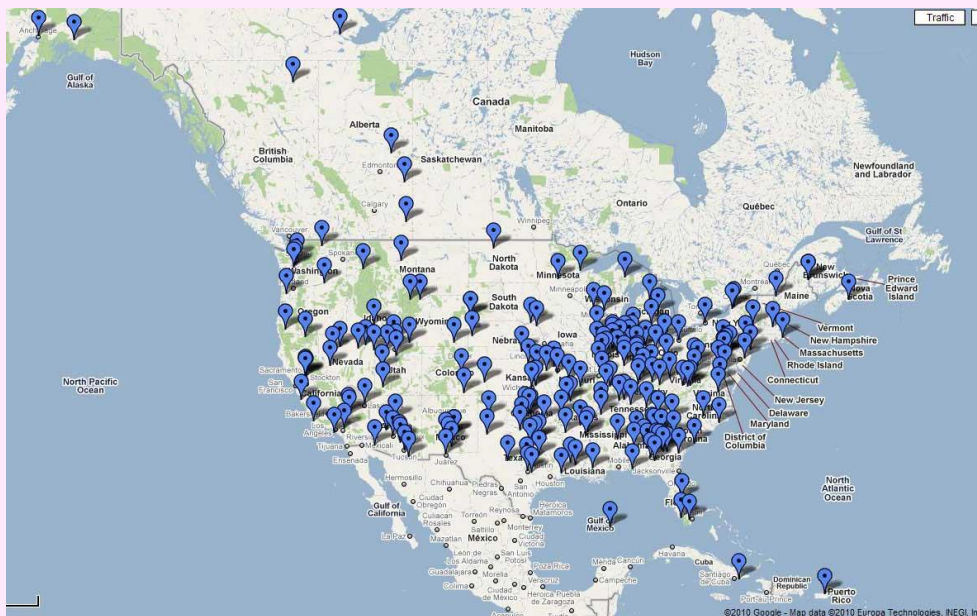

Of FEMA Camps and the Death of the USA

http://beforeitsnews.com/prophecy/2015/04/the-dual-purpose-of-jade-helm-is-revealed-2468718.html?utm_source=direct-b4in.info&utm_content=beforeit39news-verticalresponse&utm_campaign=&utm_medium=verticalresponse&utm_term=http%3A%2F%2Fb4in.info%2Fcjiv

Surely you have guessed by now that the FEMA Camps are prisons for the MAURADING HORDES that will form once the USA is reduced to the status of a Dark Ages Congolese jungle by the destruction caused by the meteor strike.

FEMA Camp locations:

Nature of the Camps:

Terrifies, shocked, confused, fearful of not surviving, starving, cold, wet, starving, the rabble will turn into ferocious animals, as we often see when law and Order breaks down.

But now, it will be on a far grander scale.

These are doomed robotic beings with no spiritual acumen whatsoever.

The army will willingly shoot them unless they follow order and go voluntarily into the CAMPS prepared for them.

And just what do you think will be done with them there? They will be assassinated, of course, in a more orderly fashion.

How many listened to me over 30 years/

How many prepared for a New Dimension?

How many turned to the Light?

Is my Mission futile?

Not at all! They have had their innumerable chances. They are beings of Darkness that cannot exist in the Light.

Those Robots that did turn to the Light, as I have told you many times, were fitted with gear on their spiritual bodies that will allow them to exist in Light Dimensions. They are the 650 million we are rescuing. The true Theomorphs were evacuated in 1999. If you have not read my essay called “The Phase of the Shells”, find it on my website and read it!

Do not be harassed by the Fate of these doomed robots. They have had infinite chances to turn to the Light.

Don't let your Emotional Body blackmail you, or else you could be further drained of your precious Divine energy in this Endtime.

Besides, many, many others all over the Globe will be in the same situation.

We will all need to face Physical Death!

What is so frightening about that? We have done it many, many times before.

Physical, Mental and Spiritual Preparation will make the transition far smoother for all of us.

*

The Archons, Reptiles and Elite will be well hidden in their lairs before the meteor strike.

But I guarantee you not one of them will survive, not physically and not spiritually!

So who are these army members who will murder their compatriots?

They are mindless, 'human' droids prepared for just his work. Any who show objection in the midst of the murderous anarchy will be dealt with in the same way as the hordes will be. They will be purposeful collateral damage.

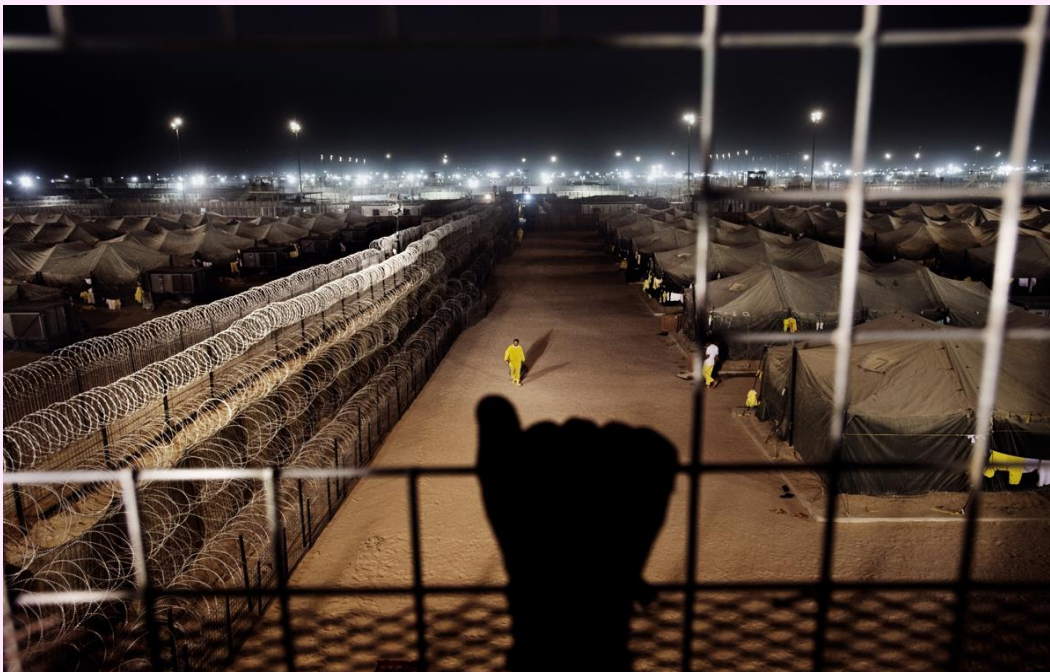

And why so many DRONES for the happy Merry Cans?

Good Night. Sleep tight!

But don't let the bed bugs bite!

POEM

Poem # 143 from my Poetry Book vol. 3

Earthly War

With spit-polished boots, and bronze buttons shining
brightly, as the weapons do, in the uncaring sun,
Young programmed and indoctrinated soldiers
march often, too often, into the fray of War,
as if it was already won.
Programmed to fly the flag of Patriotism high,
They seek vain-glory with which
to abide and even die.
But really, full of drugs and booze

and the lust of sex are they, Filled with lies and propaganda
to fight in Evil's day.

Mowed down are they by any means, as cannon fodder,
with bullets, and now, of late, with drugs,
adverse vaccines, and with incurable disease.
And as a consequence of all these scenes,
much emotional energy is extracted
from grieving relatives with ease.
Civilian populations are targets too!
This you know well, and I have no need really, to tell
of War's sadistically brutal practices to you.
There it is, now you have the reason for constant War!
It is the evil demiurge's plan to extract
energy from trapped True Beings in every era,
on every land, more and more.

He cares nought really who wins, who lives or dies.
This fraudulent world is built on hatred's violence,
on unmitigated deceit, and constant maliciousness,
and its companions, injurious lies.

To the demiurge, the Evil Mind,
instigator of Earthly Wars,
there is no Just Cause, no right or wrong.
He cares not to which side any
soldiers or civilians belong.
For him, War is but an energy feast,
For he is the Moloch, the Ghoul,
the predatory, rapacious, insatiable beast!

He cares nought for the pain, or suffering,
or misery caused by War,
with its inevitable, rapine mutilation,
For once the souls leave the scene of battle
they are judged iniquitously
by the Board of Karma and Reincarnation,
Whereupon they repeat, under threat of further
punishment, the cycle of absurdity,
being once again the defenceless

targets of Evil's relentless exploitation,
and of the suffering that results as a certainty.

Now with this Gnostic explanation,
you see why War, on this plane,
is not only glorified, but also never-ending.
With Evil's programming, pollution and indoctrination
in demonic and robotic minds,
evil Jehovah is forever sending
Sycophants into battle to extract,
via the misery of bellicosity,
the energy he needs, from the
True Beings' very Inner core,
So he can run this Evil Realm and expand it even more.

No lasting peace has ever resulted in this world
from any conflict, any confrontation,
any War, as we can see,
And each generation, claiming a march
to greater peace, and civility,
has greater and greater weapons to
increase terror and suffering,
in paradoxical perversity.

No conflict has ever been resolved
satisfactorily by violence,
hatred, slavery, subjugation, murder or genocide.
Smallest remnants of the vanquished
are programmed to Revenge,
in their anguished hearts, hide,
So that in future days again
the cycle of obscenity renews
And once again, in repeated War,
it is insured that Jehovah, the Evil Mind,
is repaid energetically with handsome dues.

Indeed, War is a cycle, profane
and obscene, of tragic waste.
Men breed violence and are educated
to go to combat in haste,

Having learned nothing from antecedent days,
For that is how the Evil demiurge
has plotted and cantankerously programmed
to rule counterfeit humanity's ways.

Many mockingly point to the medical,
and technological, and ministering
and pharmacological benefits of War,
But do you not think without its wanton
destruction and its waste, there would
be far greater benefits galore?

Often the few left of either side after torrid Wars
pusillanimously glorify their stance and cowardice hide,
Vainly boasting, at every chance, lapel ribbons and medals
shining, how great they were, as the enemy they deride.

Such nationalistic hubris builds hatred for future Wars
As the defeated mind plots, for this patriotism it abhors.

Now you know why every generation has found,
not peace, but hate, coming into its lands,
its businesses, its schools, its academies,
military and technical, through all doors.
It's often said, to the victor go the spoils,
but the victor, to keep suppressed the hatred,
and vengeful thrusts of others,
as we see in the USA, constantly,
with burdens unceasingly toils.

Unless we are rid of these evil mechanisms,
we will never be rid of cruel, exploitative, unsavoury War!
An end must come to all the suffering and all of the misery for sure.
And ruinous hypocrites totally
from creation must removed be.
Surely the need for that you see?

They ostentatiously pray for peace,
immersed in undisguised, profane mockery,
as secretly to the accommodating
evil and very covetous gods of War

they pander with enthusiasm, lustfully.

And Jehovah to them is propitious and stirs willing minds with hatred
to beat the drums of War,
As he calls for savage emotionalism and, in revolting savagery, deaths galore,
Feasting on the misery that results for sure, For, as I said above, he is insatiable,
and is forever wanting from such nefarious,
sacrificial energy feasts, more and more.
Alas, forget cynicism, that is the truthful
metaphysical rationale behind all
of the physical Wars in this Hell.

Now you see, if this Gnostic explanation you have understood and accepted,
why it is essential that the Light rings quickly the Final Bell!
And brings an end to this ghastly feast,
An end to the Ghoul of War, to the Evil Mind, Jehovah, the rapacious Beast.

FROM MY CONVERSATIONS WITH GOD

“God,

The whole World seems to be enveloped in Madness.”

“Indeed, has it not been called

The Terminal Madness of the Endtime?”

“It has been thus described.

But why is it that all of a sudden

The predominant essence is that of Insanity?”

“The Counterfeit Creation has always manifested
Insanity, as far as I am concerned.”

“What do You mean?”

“From the very instant that the Negative Aspect

Rebelled against My Order,

The development of Greed and Pride,

And the animosity shown to the Celestial Company,

Were manifestations of Insanity,

By that which became active Evil.

That is the basis for

The Mechanism of the Celestial Error.”

THE JERRY ATTRICK CORNER

JERRY'S CAMEL TRAILS

"Hi, Dr. Skipping along, after hearing what NASA intends doing this week to keep the sheep happy, I have devised an experiment of my own to seek, like NASA, the origin of life of Humanity.

I propose to get really close to the tail of a camel and take lotsa photos and even have recording and tracking devices with which I hope to catch wind of the pretty-awful sound which emanates from near the introitus, where camel life originates natally.

Naturally it will have to be a female camel, although I don't think the sound is anything like `Aum' that I have heard is supposed to be the primary sound uttered by gurus ubiquitously."

"Jerry, NASA meant it is sending a rocket to the tail of a comet, not a camel. And besides, it's the Primordial sound which emanated and gave life, not a pretty-awful one. And do you really expect the non-medical readers 'bout introitus to have a clue?"

"Well, doc, have you been near a camel, or horse, when its wind and sound emanate?

It's pretty awful to me. Smells bad too!

Besides, I reckon my results will be a lot closer to the origins of life than NASA will ever get.

On that you can surely bet.

And regarding your `in-your-end-o' that readers won't know what that word means, they've got dignitaries and tyrannosauruses haven't they?"

"I think you mean dictionaries and thesauruses,

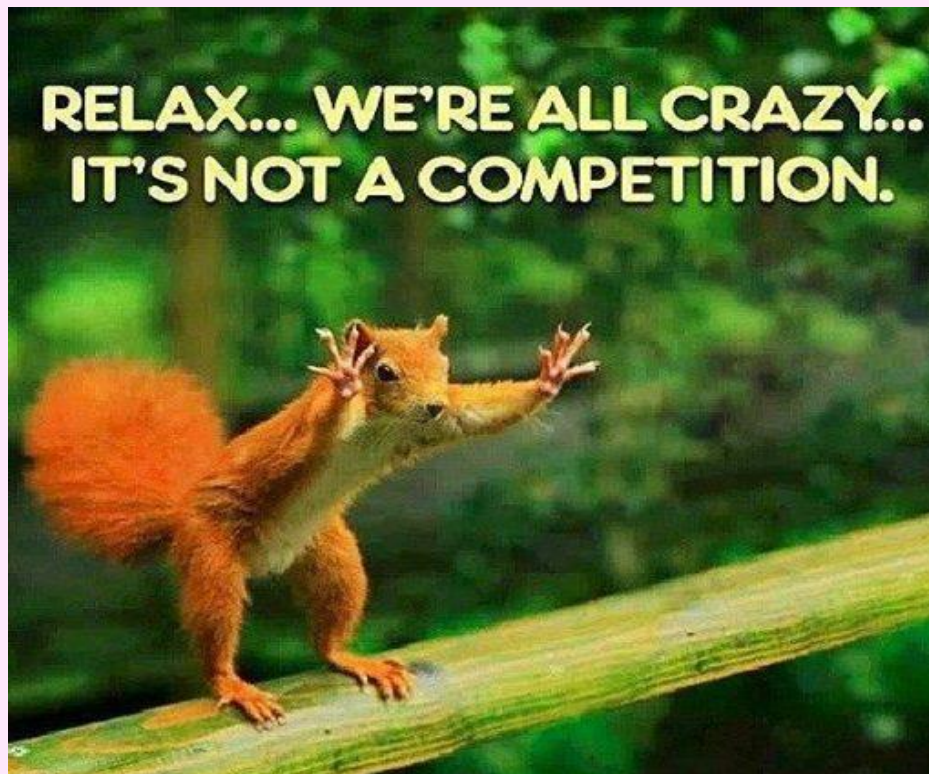

and at some time them you to use, I pray.
And the word you cannot spell is `innuendo'.

But, let's get back to NASA.

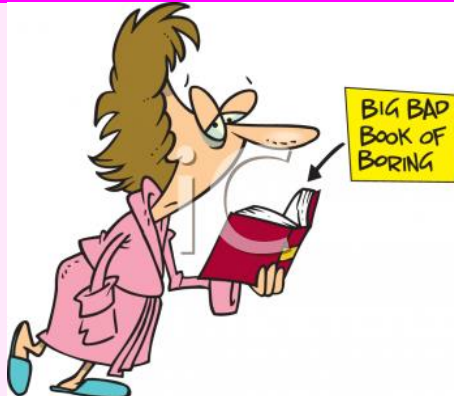

They are spending vast sums of money on the suspicion
that water and organic material, in the form of
molecular-particles - probably similar to the
polychromatic, polycyclic and amorphous, aromatic
hydrocarbons found on Martian rocks - fell to Earth from
the tail of comets, like melted butter."

"Well, they don't have to go to all that trouble and
expense. For a much smaller cost I will tell them, **with
certainty**, that lots of water and organic matter, in the
form of messy patties and smelly, smaller particles -
they're aromatic for sure, especially when they're fresh! -
fall to Earth from the region of a Camel's tail! And I am
confident of that,
not just suspicious as would be some other."

Knowing Jerry, I don't think we have heard
the last of this! I'm sure sooner or later,
with great detail about it all, us he'll bother.

DEATH OF THE FINACIAL BEING AND THE DOLLAR COLLAPSE

Metaphysically, have you considered the fact that the Collapse of the Dollar is a consequence of the death of the Financial Being?

Who will suffer the most with this collapse?

It will be the Zionists, of course.

They set up the Financial System everywhere.

They were the Chosen of Jehovah to do just that.

So, seeing Jehovah and the Financial Being died,
their end, with their system's collapse, must come too!

CORRESPONDENCE

T. from Cairns writes:

Thank you for everything you have written for all to read. Many pieces of the jigsaw puzzle did not fit together until I found your work. It is so important and a privilege to have this information. Your posts you send us are a work of art. Post 18...the message from the Divine Mother was touching. I sure did feel that in my heart, and yes, I have thanked Her.

I have always sent love to the animals and I let cattle going to slaughter when I see them in the trucks know that they are loved and go to the other side, and it will be OK. I send it even if they may not be viable. W who am I to say yes or no?

Many years before I awoke I shot a kangaroo in which was the last time I purposely killed an animal. I stared at it while it was dying and then it sked me why did I do it. To this day I regret this incident and I am sorry to all animals I hurt or killed. I love them and accept any punishment I must pay. I had to get this off my chest by telling you, Joseph. Cheers T.

My reply: Thanks for your lovely letter. What you felt and experienced must surely leave you in no doubt about your nature and abilities. Indeed, we have all been programmed to do evil

things, like murder animals, when we were drugged by the darkness. I am sure we are forgiven. Stay well.

Here is a site sent to me by a friend:

<http://projectcamelotportal.com/component/k2/3786-captain-mark-richards-interview-iii-space-command>

This is what I wrote back.

Thanks for forwarding this. I don't trust Project Camelot for one moment. They are liars and disinformation experts. When I went public in the 1980's and early 1990's they invited me to join their team. Sensing their energies, I refused.

Then they stole whatever material they could from me, gave it a twist and called it theirs!!

The contents here are a collage of public reports, information from the astral world, basic disinformation and a lot of BS. Most of it is NOT believable.

For example:

- 1 Although there is a Stargate in Iraq, no one could operate it.
If it was operational as is reported here, why would Saddam not use it to escape?
- 2 Saddam was an Avatar splinter and died physically as we all know.
- 3 Aliens could destroy all of life on the planet if they wished to. The battles at Dulce, etc., were and are minor frays by humans against basic alien robots who were limited by their instructions from their superiors. They could have wiped out all of the USA if they were instructed and wanted to.
- 4 This chap writes that Richards is faithful to the USA who has abused him thus. How believable is that?
- 5 He claims he believes in Democracy. Anyone that knows anything knows that no such thing as Democracy exists.
After going at length with this BS of how Aliens control everything on Earth, where does he get this Democracy BS from? That is a really bad flaw in this piece.
- 6 The Reptilian Consciousness that controls China is the most advanced of the alien races controlling aspects of Earth. I discuss this with Rense in a show with him in the 1990s.
They did not need the added technology that was the reason for shooting down the Malaysian airliner.
- 7 Regarding the cloud at eh Centre of the galaxy being a threat to Earth: How many billions of years do you think it would take to travel to us from there? Ridiculous!!!

There are many more points one could discuss and dispute.

A lot of this stuff one can gain from alternate literature magazines, from shows like the Ancient Aliens, from Astral readings from psychic, etc. Joseph C

Dear Dr. Chiappalone,

I have a few questions that came to mind per your last two entries. But I can get to them later. But what is most profound is that your words in these posts are literally like food for me. I am literally transformed by them and as a coincidence I am actually eating less supposedly because of it. As if I am sustained by a higher energy. (I've lost a few pounds too). It also has allowed me to surrender deeper to the will of God (without any effort; only intention). Truly, That World is more real to me on a day to day basis than this Hell. You've made it easier for me and I thank you for it. Ray

Again it's time for me to say:
"Goodnight, goodbye, dear Viables.
Sleep well.

Let the Goddess of Serenity
with Her mantle of Light and Purity
embrace your Spirit so dreams of
Righteousness, of Love, and of Light
will be yours verily.

Goodnight; sleep well and sleep
assured that tomorrow will fulfil
all that we wished and bring all the Joy on
this Earth we've missed,
for this fraudulent World, in Truth,
is but an Abyss of Darkness and Deceit

in which, like venomous vipers,
Demons constantly at us have hissed.

Forget the pain and sorrow; forget the poverty and misery;
forget the unending iniquities of Depravity
in this land of counterfeits and, for Truth, Mockery.

Forget the boorishness, the exploitations
and the horrible, horrible wars;
forget the punishment and abuse from unjust and prostituted laws.

Forget the attempts to drown you
in the Sea of Emotional Blackmail,
and soar instead onto clouds of calmness,
of soothing, lasting Tranquillity.

Sleep and let the Angels
to your Spirit sing,

As they transport you before
the Throne of your Queen and King
Who will, with enthusiasm, welcome you,
and nurture you, with Love True, eternally.

Sleep well and be consoled with
the thought that you have partaken,
undoubtedly, of the Final Victory
and yours is the wanted Bounty,
the rightful share of the Glory."

My Kitten “Maserati” wishes you well.

As do these 2 Monkeys:

Kara and your host.....
