We are back after taking a long break from writing much of anything. After the 40 part series revealing what is in the Koran, and then working diligently to compile the series into a pdf book version it was overwhelming and sleep depriving. What was overwhelming? The Koran and what is in it. When we began considering what it was that we had done and launched out to the world, it did not take very long to realize that where Muslims are concerned, the very fact that we exposed the Koran in the manner that we did it, makes them and their Death Cult look bad, so therefore we deserve to be killed. There is no argument or discussion. It is either you subscribe to the letter of the Koran and the Sharia law it espouses, or you must be killed. Islam will tolerate no truth about itself and will not suffer its adherents to assimilate into the cultures they are infecting with their virulent strain of anti Christian; indeed anti life sophistry and fear mongering. Islam is a religion of fear and suffering. It is a destroyer of all that is valuable and of a high flight nature; such as the civilization built by the White Race. Muslims want to tear it all down and convert everything Whites have built into a 4th world hell hole. We are presently witnessing this process in Europe. We have already seen what Islam does when we look at the Middle East; indeed all of North and South Africa. Those lands were Christian at one time and of a high flight nature. Now what you see there is mostly of a mediocre quality and the people have become suspicious of strangers and dangerous to non Muslims.

An other exposé of Islam is a recently published book by J.K. Sheindlin, an obviously Jewish writer who has used the present Muslim invasion crisis, created by Jews, to again teach us about how Jews are not malfeasant and their death cult is just 'one of the boys' so to speak. Sheindlin makes valid points throughout his book regarding the psychopathy of the Prophet Muhammad and indeed, does a good job of revealing what a bizarre creation the Koran is and how the Prophet of Allah would be institutionalized today in an asylum for the criminally insane. We are of the same opinion at DtRH. The book, *The People vs Muhammad* proposes early in the discussion that Muhammad might have been a committee of psychos because the amount and frequency of psychopathic tendencies espoused by the Prophet of Allah are not possible reflections of one man's character. However, immediately after making this argument, Sheindlin goes on to discuss Muhammad's character traits as if he is one man; as is claimed by the Koran. Sheindlin should have left the group discussion to the last of the book because he makes moot the rest of his psychoanalysis. If Muhammad is one person or a group, makes a big difference to the discussion.

I found that J.K. made a lot of very important points regarding what Islam is and how insane the entire belief system is. He is correct regarding his claims against Islam and the Prophet. Indeed I have no arguments with Sheindlin's position regarding Islam and its favorite pedophile. Where I draw the line is his assertions covering up the Truth of 9/11 and still blaming that pivotal historic event on crazy Muslims when we all know that the entire operation was a huge false flag perpetrated by Israel and its Mossad. Sheindlin also makes deliberate errors regarding the definition of Fascism and slips in, wherever necessary, the Jewish take on history and how the Nazis are the bad guys. When he slipped in the fictitious 6 million figure and attempted to denigrate Adolf Hitler by comparing the Great Man to a sick little pervert; likely a dwarf with an overblown Napoleon and God Complex, according to Sheindlin, that being Muhammad, I had to stop reading because I almost threw up on page 162. That is the end of my reading of Sheindlin the Jew's book. You are far better to read the exposé of the Koran presented by Down the Rabbit Hole and published on Rense.com. It is all you need to realize that Islam is not our friend and wants ALL UNBELIEVERS DEAD! You can find, *The People vs Muhammad* available all over the place since it being a Jew's book, it gets lots of promotion and support. I had fun with this book for the first 161 pages but it became obvious what the secondary agenda of the book is and I do not support that agenda; it being the Jewish one as revealed in the

PROTOCOLS OF THE LEARNED ELDERS OF ZION. This is a must read and can be found on line.

Reading the DtRH look into the Koran, entitled: *The Horror, An In-depth Look Into the Koran* by Emmanuel Truthseeker and edited by Lynda Ferrus, will save you a lot of time because Emmanuel has made understanding of Islam's holy book easy for you by highlighting important words and ideas expressed in that amazingly bizarre collection of bits and pieces of Torah Tales, overt psychopathy, and degrading practices such as, slavery and the beating of wives. We suggest you save your money and give Sheindlin's book a pass. Jews do not need our support nor do they deserve it, especially when they continue to attempt indoctrinating the unsuspecting, historically ignorant readers who will come to hate Islam, with good reason, but will continue to overlook the malfeasance of the Jews behind the Muslim narrative.

Recently I had occasion to ride a city bus and a young Muslima stepped on board. One of those Arabic looking young women with an expression on her face which revealed nothing. I stared into her eyes for quite a while and she just sat there calmly staring back; not a glimmer of life like energy in those dark eyes; not a change in her expression; no discomfort, nothing. I did not say anything but came away with a distinctly unsettling feeling. She had a smug look and I would not be surprised if she was filming me with her cellphone camera when I turned away. I would not be surprised if I am now a suspect with the creature's Imam. I am sure my scowling face was taken note of.

In our local Superstore a Negro in bed sheets stands by a wall next to the front doors. She just stands there with a dumb as mud face; an obvious example of the new hiring policies we see being used against White People. Most of the staff in that store is made up of foreigners with more and more Muslimas and assorted other Third Worldians. Many different languages are spoken and few can communicate effectively any more with those of us who speak eloquent English. The Tower of Babble (sic) has been rebuilt at ground level. If things continue as the Jewish governments of the western demonocracies (sic) have planned for us, pretty soon *worm script* will be the official written word. Then all learning will consist of repeated Koran immersions, year after year until the human minds are totally fucked up and everyone is a Muslim. Allahu Akbar.

The preceding is the scenario that we are being set up for. Students in the Public Fool Systems of the western world have already been rendered into mush minded simpletons; easily cucked by Jewish malfeasance manifesting as Popular Culture and promulgated to the masses by the Main Scream Media. Many of these compromised children have been led to believe that we are all one and the same regardless of DNA and ideologies. The fact of the matter is: we are NOT ALL THE SAME. Hence, the Three Horsemen of the Apocalypse, who galloped out of the French Revolution have now achieved the death wish for Western Culture. Liberty, Fraternity, and Equality have swallowed up reason and destroyed the very fabric of Christian Culture rendering White Countries into multicultural zoos where the populations are easily controlled because in general they are so very ignorant and lots are downright dumb as a tool box. There are many young people who have trouble figuring out how to use a simple can opener as was witnessed in a recent You Tube video I watched. A black youth, aged about 15 or 16 was given an unraveled spool of wire to roll up. He kept at it and at it, never figuring out what the spindle was for so the roll kept unrolling on him. True dat.

We are not all the same. Even though beings look human, in that their physical form corresponds to that of homo neaderthalis or sapiens, does not mean they are human. To be human involves more traits than the merely physical. DNA also determines many other factors in what makes up a human being or other similar looking creature. DNA can render a being intelligent or dumb. DNA can make a being big and strong or small and weak. DNA can make you to a large degree what you are, unless you 'call no man, Master' and take control over your natural propensities and take charge of your own evolution. Being a member of a hive mind, such as Judaism or Islam renders you a cog in a machine and not an individual spirit destined for eternal glory. Verily, WE ARE AT WAR! The war is on for your heart, your mind, and your soul.
