RE: Smart Meter Opposition

TO: Whom It May Concern:

Our Law Firm, POWERS AT LAW, LLC; STOP SMART METERS IN OKLAHOMA; OKSAFE; and TULSA 9-12 are all working to counter the growing cancer of Smart Meters in Oklahoma. We are in a process now that will attempt to raise awareness of this problem with the public.

In order to accomplish our goal we need to know about people who do not support the Smart Meter technology for health or privacy reasons, or for the fact that nearly all publicity about Smart Meters is a lie. If you are against the implementation of this radiation attack on your body, your freedom and your liberty or if you are interested in being part of a class-action law suit against the perpetrators of Smart Meters in Oklahoma; then we would like to know where you are and who you are.

If you are one of those above, please give your Name, Address, Phone, and E-mail to Mr. Esposito, who may be contacting you, or mail me a card, note, or letter with your information saying you are concerned about Smart Meters and would talk to anyone about the situation. Even if you're not interested in talking to someone else about Smart Meters, let us know if you would be interested in being a member of the class when a suit is filed.

With your help we can start to get word out on the Smart Meter situation, and to prepare for a class action suit, which apparently is the only way that you are going to be able to protect your rights. We appreciate your standing with us on this important matter.

God Bless,

Don M. Powers,
