Is Toronto Star a threat to Canada?

Its Rosenthal family gave nuclear secrets to Stalin? Informed KGB of Russian dissidents' secrets? Suppressed Stalin's post-war genocides?

"Progressive" ideas simultaneously weaken Canada's place in the world as its pioneers and soldiers would have refused to give up sovereignty and democracy for the alien influence Canada now suffers

Information here comes from people who fear for their lives from these same people.

Currently we have only revealed a tiny corner of what goes on (harassment and near-death experiences for my part on the front pages of the paper such as police copter parked above our office back door, fried cell phone while speaking to an informant, almost being run off the road at high speed, hacked email, hacked website, cell phone conversation overheard with subsequent interruption at meeting) -- senior police intelligence people who are either "retired" early, or are murdered, or corrupt, or honestly afraid for their own lives if they proceed on the knowledge of how the JFK assassination was done through Toronto and the powers behind the scenes.

In some ways, I wish I had never known about these things.

However, it is instructive to realize that Burnett Thall who worked at Chalk River by nuclear research in wartime had as his co-horts individuals who escaped to the Soviet Union having given secrets to Stalin. The Rosenbergs were executed in the U.S. for passing on nuclear secrets. Burnett Thall was subsequently invited to help build Canada's first nuclear plants in 1945.

He had an important role at the Toronto Star with knowledge as a megalomaniac to invent major improvements in printing plates that lasted longer than saving them large monies.

I know now why the Stalin genocides (Ukrainians 10 million starved to death) and millions dead in Stalin's concentration camps (gulags) were never mentioned in the Toronto Star all these years.

Is it possible that Thall interviewed Vanunu because he had a part in the de-

sign of the Israeli nuclear warhead production himself?

Mark Gayn, a veteran writer for the Star and close friend was a double-agent pretending to aid dissidents in Russia as a so-called freedom-loving journalist while he was actually giving that info over to Russia's KGB. He was also involved in handing over Chiang Kai Chek's battle plans to Chairman Mao from U.S. Naval files.. He was arrested at one point. He had ties to the U.S. Communist Party, ties to

interview with a so-called journalist Nelson Thall (aka Lenny Bloom) Vanunu was considered to be in violation of his prison-release terms to shut up and was returned to prison.

So, Thall apparently continues in the same vein as Mark Gayn -- put away genuine freedom loving people.

His attempts at passing information to the public is called "infotainment". It should properly be called "dis-infotainment". Apparently these are attempts to slant the news and cause confusion. His latest claim is that Michael Jackson is alive

the facts according to what I have been told.

Nelson Thall/Lenny Bloom also knows who shot Kennedy.

Neither of these two promote the exposure of the killer. But I'm not concerned about the serial killer family -- it's who ordered the hit that concerns me.

It seems apparent a number of groups were involved as Kennedy was withdrawing troops from Vietnam thereby denying war industry profiteers, issued money from the treasury instead of borrowing from privately owned Federal Reserve, withdrew air support from the CIA's invasion of Cuba (restoration of mafia), declared he would shut down the CIA. The apparent real reason for the hit: Kennedy was stopping Israel's nuclear plant construction and building of 400 nuclear warheads -- with some nuclear secrets passed on by Burnett Thall?

The *Toronto Sun's* Worthington is a known CIA asset we know of. But it looks like the real live and active characters on my case are zionists who have demonstrated a huge interest in the JFK assassination. I can only come to the conclusion that it was the Mossad who organized and paid for the hit on JFK. A local accomplished killer took part in the 3 man hit but they were only employees now used as a detour for observers

the major name traitors who gave nuclear secrets to Russia's KGB zionists.

The son, Nelson Thall has followed up by also being a double-dealer by interviewing I s -

his children in rain.

to hide those who ordered the hit. zionists. I am surveilled by a variety of them and have been threatened and harassed by them to the point I know more of their threat patterns and attempts on my life than they know of themselves!

I don't know how long my current email will last until they hack this one too - they hacked my hotmail and my website with such electronic capabilities that I cannot recover my email of ten years as Hotmail told me it is a very high level security problem for them!

The *Toronto Star* pic above reflects the zionist colour; at Christmas time the only red and blue Christmas lights on lower Yonge Street approaching the *Star* were the stop lights.
