FLIGHT Tu 154
The Russian jet liner which crashed into the Black Sea and resulting in the death of an entire band of military entertainers was brought down under very unusual circumstances. No news has been released since the first opening of one of the black boxes. After that there has been silence. Some speculate that the plane was brought down with an EMP; an electromagnetic pulse. We value your opinions. Please share your ideas regarding this mystery.

WHAT ARE WE TO BELIEVE ANYMORE?
Given the revelations regarding the Main Scream News/Jews, that they are totally untrustworthy and have been lying in our faces for a very long time, and now with aspersions being tossed at the alternative news, as well, what are we to believe anymore? We can not trust anyone, it seems. Certainly we can not trust our politicians, either, since they too lie, lie, lie, and cheat, and steal, and even kill those of us who blow the whistle on them. The only way you can know who to trust is by doing a lot of your own research; that is, read lots of books of history, philosophy, science, biographies.... When you have a good, solid knowledge base you will have more information to base your opinions on and be able to judge more clearly whether some, ‘authority’ is telling you the truth, or not. Alas, the Public Fool System has done a great job in turning off a lot of people to reading anything substantial. Since, we at Down the Rabbit Hole are all about education, we will give you important titles to consider from time to time, such as: Mein Kampf, by Adolf Hitler, or the Controversy of Zion by Douglas Read. Angels Don’t Play This H.A.A.R.P by Nick Begich, regarding the dangerous military technology used to screw up our weather; effect earthquakes and stir up those slag heaps you call, volcanoes. Ralph K. Epperson wrote a marvelous book titled, The Unseen Hand. Very good information in there, as in the other books. Lost Science by Gerry Vassilatos, is incredible. It will make you angry when you learn how beneficial technologies were quashed by jews; those quintessential rainy clouds over everyone’s parade. A Jew suppressed the cure for cancer in 1938. You will learn about, Morris Fishbein in Lost Science. Morris, like all Jews, wormed his way up in the echelons of an important institution, in this case, The American Medical Association. Morris Fishbein was the name of that infamous Jew; now, obviously responsible for the deaths of millions and millions of cancer sufferers since that terrible day in court when Royal Raymond
Rife, the inventor sat in the dock, in tears, crying, ‘why are you doing this? I can save humanity?’ The Rife Ray Tube cured all viral diseases. Bacterial issues were also easily dealt with, apparently. Strep throat, for example was CURED with a ten second burst from the ray tube at the correct frequency. The great man’s laboratory was burned down and his notes lost to the flames, just as Nikola Tesla’s lab was burned down by the Jew, J.P. Morgan and T.A. Edison; a typical plagiarizing scumbag who got credit for things he did not invent or deserve to be lauded for. Another fraud was Mister Bell. An Italian invented the telephone and patented it in the first half of the 19th Century. That phone did not need wires in order to work. Antonio Meucci figured out how to send signals through the ground. Why was Bell credited with the phone invention you ask? BECAUSE he invented the need for a phone company to supply the wires. You have paid through the nose for the privilege of using phones ever since. Meucci’s phone only needed a handset.

NOW FOR SOMETHING COMPLETELY DIFFERENT, AND YET, THE SAME.

Pedophilia appears to be on the increase. It is the opinion of our CDE that this abomination has been with us for a very long time and is nothing new. Ancient Greeks, well known for their perversions, enjoyed little boys. The Emperor Tiberius liked little boys and girls, whom he had swim naked in his private pool in his villa on Capri. He called them, ‘his little fishes.’ That sick old pervert also liked to throw hapless victims off a cliff if he suspected them of disloyalty; and believe me, Tiberius was every bit as paranoid as Joseph Stalin; a very sick, twisted scumbag who was a good friend of a real nasty bit of crypto Jewish business, Winston Churchill. Emperor Nero liked doing it with children, and with whatever else might have a place to prod the Imperial phallis. Emperor Caligula penetrated what he could, even his own sisters. Incest, pedophilia, all of it was openly practiced in ancient times until it went underground after the Jew, Saul of Tarsus managed to invent a religion and the perversions became the practice of popes and cardinals; monks and friars, kings and queens, and other ‘noble’ personages. Any plebeians caught doing it, were tortured and killed. It is similar to closet homosexuals vehemently espousing heterosexuality, for example.

We who form the staff of, Down the Rabbit Hole are of the opinion that homosexuality and pedophilia are diseases. Indeed, we consider them mental health issues. In the case of homosexuals; who are not genetically wired to be perverts, make a conscious decision to become sodomites; an abomination and totally against nature. Hence, that dangerous lifestyle choice is a mental illness. As for pedophiles; we are of the opinion that they be castrated after the first proven offense; in the case the perpetrator is a man; most pedos are men. In the case it is a woman, first offense, perhaps she should lose an ear? After the second offense, the miscreant is hung for the crime of preying upon innocent children. As soon as the Supreme Court of Jokers, Jesters, Masons, and Morons votes to legalize pedophilia as they have done in places in sick old Europe, those judges, those learned psychopaths become fair game, in our opinion. Fair game to shoot on sight. We are so very sick and tired of all the cultural Marxist claptrap posing as political correctness which is eating up our values and destroying the very soul of our nations. We know who the culprits are. There are only 17 million of them worldwide and they are not the chosen people of the Eternal Father, but indeed are a destructive force hell bent on realizing an age old agenda first formulated by Lucifer and his batman, Satan.

‘May you live in interesting times,’ said an old Chinese philosopher. He meant it as a curse. We are living that curse now and unless you all start to buck up and take action, your nations will be lost thanks to the malfeasance of Jews and the murderous actions of their dangerous pets, The Muslims, coming to a neighborhood near you real soon if you do not stop it.
