Help!

A Desperate Plea From South Africa

On my desk is a long list of Dutch sounding names. They are the names of dead descendants of brave, adventurous, and highly industrious Dutch farmers; Boers, who emigrated at great expense and a significant amount of trepidation and hardship to the Cape of Good Hope in order to take advantage of and contribute to the growing need for victuals by increased European shipping which took place between the fabulously rich Spice Islands, those sumptuous islands of the Malay Peninsula, the sub continent of India and China; that mysterious nation in the far East. When the Boers began to arrive in the Cape in increasing numbers, what they found there was a fort and some out buildings established there by a skilled, young Dutch man, Jan van Riebeeck on behalf of the East India Trading Company, a consortium of Dutch merchants who were taking increasing advantage of the Portuguese discovery that the Cape could be rounded and the Indian Ocean safely reached thereby. The fort and the town which developed there in order to minister to the needs of increasing numbers of merchant mariners came to be known as Cape Town.

When the amazing Mister van Riebeeck and his entourage established themselves and built the beginnings of what developed into a mighty nation, they found no negroes there. Black people with skins the colour of coal, or so dark blue, they are indigo in colour, did not exist in the South Cape of Africa. In fact, it took a 150 years! of development by the enterprising Hollanders before a black man set eyes on a White Man. One Hundred and Fifty Years! By that time Cape Town was a thriving city and the undeveloped lands grew into huge farming enterprises producing high grade beef, mutton, pork, grain, fruit, superb wine, you name it which began to be so abundant that the growing state began exporting surplus goods to Europe and thusly increasing the wealth of the White people who made so much of a strange land where lions roared and snakes slithered about. The only human beings the Whites encountered in those early days who inhabited the Western Cape and the Kalahari were the Khoi Khoi and the San; who the Whites collectively called, Hottentots. These indigenous people are brown skinned and not genetically related in any way to the blacks of Central and Sub Saharan Africa; the nearest tribes to the expanding nations of South Africa being the Bantu and Xhosa; two very dangerous adversaries who began to become a very serious problem for the Boers, since those stone aged savages began to steal cattle and murder Whites in barbaric ways once the contact had begun.

In the North Eastern area of the developing nations, SA and Rhodesia precious metals and stones were found. Of course, the moment such things are discovered, a certain group of internationalists take notice. A significantly powerful cabal of those vermin were centered in the City of London and they cast covetous eyes in the direction of the Land Which the Boers Built. Their voracious little queen rubbed her tiny hands together and authorized the invasion of South Africa and Rhodesia; invented concentration camps, and given the British Empire's wealth and production facilities, plus its large quantity of human fodder, committed horrific atrocities against the Boers, starving their women and children to death in camps which the National Socialists most certainly never created but were a significant feature of Communist USSR, where the International Vermin murdered upwards of 140 MILLION Christians! Many in ways which make the Visigoths or the Catholic Psychopaths of the Spanish Inquisition appear to be gentle saints in comparison. Eventually the Boers could not do it any longer and they lost the wealth they and their ancestors had wrought from a hostile nature and tamed her to become something truly incredible in the histories and herstories of this planet.

Eventually, as the fraud of Demon Ocracy totally corrupted the minds and hearts of people world wide, especially White People, they gradually have lost most of their countries to the machinations of those 'merchants,' those International Banksters who have impoverished millions and reduced their once proud nations to debt slavery who must obey their Talmudic Masters; those Children of Satan whom Jesus of Nazareth clearly identified and was murdered by them because of that and have convinced the weak of mind and dull of spirit that Our Father in Heaven committed the horrific tortuous murder of His Son in order to be moved to forgive us for our sins. Think of that and what an incredible Jewish lie that is; taking the responsibility for the crucifixion of Jesus of Nazareth off the shoulders of the Pharisees and Sadducees; those Judaics who were not called Jews until the late 17th Century when that moniker began to appear in the English lexicon.

The Talmud teaches that the law for the Jew is that he must lie, cheat, steal, and even kill Goyim. Goyim are, 'animals in human skin.' Goyim are Gentiles; those of us who do not subscribe to the Judaic psychopathy. Brown and black skinned people are even more animals, as far as Judaics are concerned and hence, such people, if they are a problem can be easily exterminated with diseases for which they have no immunity. Hence, Small Pox was introduced to the INDIGENOUS people of the Cape and upwards of 90% of those Khoisan were murdered and their populations became very marginalized and further subjected to the most degrading conditions; nothing they came to because of anything they did. The fact that those people are poor, is not because they lack intelligence. Those Khoisan were impoverished because they were destroyed and reduced to tiny numbers with no strength to withstand the destruction of their ways of life; traditions which spanned millennia in that region of the world. Indeed, geneticists claim that the Khoisan carry some of the oldest DNA on the planet. Their roots go very, very deep in the region which is now trying desperately to secede from a criminal, Communist South Africa ruled over by negroes; Bantu, Xhosa, Zulu, and others; people who are interlopers and have no claim to anything to do with South Africa. Because of Demon Ocracy, eventually some very traitorous White Men in the government of the nation sold out the Boers and allowed a slimy little weasel; indeed a convicted psychopathic killer to become the president of South Africa and killing of White People began in earnest. Now, two decades later, since the terrorist Nelson Mandela, may his name live in infamy, more than 80,000 White People have been murdered by blacks in the most horrific manner possible. Just imagine an electric drill being applied to your knee. That is what is happening in South Africa today and everyday. As I told you, on my desk is a long list of names of dead White People who were subjected to the most gruesome torture and murder; their flesh eaten by Diabolical cannibals with a very low IQ and extremely high propensity for violence; all of them having been indoctrinated to believe that White People are the reason for their lack of brain power and inability to take care of themselves. Of course those Commie Chimp hybrids of the ANC do not recognize the Judaic as the source of the problems because those Spawn of Lucifer look just like White People, being Khazars from central Europe. Unless this common enemy is clearly identified and dealt with as all vermin must be dealt with, the problems we have, not only in South Africa, but world wide are going to continue to get worse. Now is one of those times when human beings of good will and courage stand up to the oppressive forces; those principalities who are not of this world. It is time to get the International Banksters off our collective backs and one way we can achieve that is to take a strong stand and support the noble idea of a new state founded on those Christian Principles of the Golden Rule and the Ten Commandments which are the foundations of the mighty White Nations which nurtured those incredible human beings who essentially built the modern world and made life better for so very many of us everywhere including Central and Sub Saharan Africa; now crumbling back to Fourth World status as Communist negroes have taken over.

In order for the United State of Good Hope to achieve her independence from the criminal Pretorians she has to be recognized as an independent nation by one other independent nation. Such a nation has stepped forward but the proviso is, the letter of recognition has to be fetched and that will cost money; something not abundantly available to those trying so very hard to make a safe place for all people of good will and the only refuge for the Boers, who will most certainly be exterminated come December when the land grab policy goes into effect at the behest of President Zuma, another black murdering psychopathic narcissist much like that Mugabe

creature in, what was once a White Nation, now a Fifth World slum where money is not worth a sheet of toilet paper thanks to the incredible brain power of the interlopers who stole the once proud nation away from those who built it and made it great. President Zuma, who now owns a half billion dollar private jet, thanks to the SA taxpayers; many of those White People now living in squatter camps because all their job prospects have been removed by the Communist criminals, has been openly filmed singing the, Kill the Boers, song at political rallies. A blood bath is imminent and time is of the essence if any Whites are to be saved.

Hence a call for help has come to assist with the procurement of at least \$3000 USD to immediately enable the fetching of the recognition letter. Without that letter, the United State of Good Hope will only remain a righteous and noble idea but will not come to fruition in time. This call for help is urgent. Very, very urgent.

In order to give you an overstanding of the fund raising issue is that there are factions within the secessionist state and in the ANC government who see attempts at fund raising as some sort of way for the Khoisan Royal House to enrich itself. This is blatant nonsense of course, but you, who have lived for a while know full well that in any barrel of delicious apples one can often find some rotten ones. It's those those rotten human apples in the sturdy barrel of righteousness who are preventing the realization of a potential shining beacon to the world and all people who love freedom and the opportunity to achieve greatness and not be burdened with the anchor of the International Banksters and their nefarious schemes to impoverish people and their nations with fiat money not worth the paper it is printed on but costs us all our tangible assets. Indeed the tangible assets of the Boers; the White People who built South Africa and Rhodesia has been almost completely stolen away from under them with the full support of Communist criminals who were indoctrinated with Marxist sophistry and are too stupid to realize what a pile of judaic crap that all is. Believe me, I have done graduate work in Marxism and I tell you without equivocation, it is Talmudic clap trap and a disastrous political system for those of us who love freedom.

Communism is a Judaic invention and is meant to develop circumstances in which tyranny is openly practiced in order to achieve the end goal; the complete eradication of private property and total subjugation of the people to the state. The end justifies the means, according to Communists. Any means are all right, especially if those means result in a diminution of the opposition and that is White Christians such as the Boers of South Africa.

The United State of Good Hope is a possible final 'kick at the cat' in which White Christian people, indeed ALL people of good will, be they Black, Brown, White or Yellow skinned can have a nation in which the Internationalists can not function and everyone has an opportunity to thrive under a benevolent government which will not tolerate Communism and other subversive ideas to pollute the nation. If this great, righteous nation can not rise due to a lack of funds; indeed an amount so tiny, some rich Judaics will spend that amount on lunch or a new pair of shoes, we all stand to lose; not just in South Africa, but everywhere. The United State of Good Hope can be the example to all of us that it is possible to shrug off the Communist criminals. This great new nation can be the beacon of hope which will encourage everyone to take back control of their lives and their nations and free themselves of the anchor which has prevented this planet from becoming a Paradise a long time ago.

South Africa physically is a Paradise. However, due to the interlopers; those Communist vermin of the ANC, South Africa is becoming a very dangerous hell hole where 45 million blacks are pitted up against 5 million Whites. Come December, when the land grab begins, there will come something dark and sinister over the land and ideas of Paradise will be forgotten as horrific violence and rivers of blood; black and White, Khoisan, Indians, Malays, Chinese; all those people who are not negroes will be murdered one after another until only blacks are left; and, since they are the most racist of all human manifestations, they being members of various tribes will turn on each other until only the Zulus will be left in the end and hell will reign supreme in very dark place where Ju Ju is the religion and human beings are cooked and eaten without a salad bar.
