

The Horror

An in-depth tour through the MUSLIM'S HOLY BOOK

Learn why you should be very concerned about the Muslim Invasion

Almost every page of the Koran calls for the torture and murder of all unbelievers. Read for yourself why Muslims will never integrate or become your loving neighbors. Islam is a dangerous rape and death cult. You will see that for yourself when you read *The Horror*. In 136 pages, the author clearly reveals, without bias, the source of Muslim malfeasance; a 1400 year history of rape, pillage, and murder. By going to the source of the problem, you will realize why you should advocate the immediate closure of all mosques and the preferred expulsion from the nation of all Muslims; men, women, and their copious children who already exhibit signs of this hive minded psychopathy. Muslims believe that they are superior beings and that they should own the world. Mosques are weapons caches. Learn from the text first hand why Muslims have killed over 600 million people and the number is going up by the day in many places.
